The purpose of the Home Occupation provisions in the Greene County Zoning Regulations is to allow for home occupations which are compatible with the neighborhoods in which they are located. Review and approval is for adherence to the current regulations governing the specific zoning district in which the property is located.

PLEASE NOTE: All applications will require review for compliance with current Greene County Zoning and Subdivision Regulations. To make the necessary investigations, Greene County staff needs to have access to the property under review to make certain determinations, including but not limited to: stormwater runoff, slope, site distances, and setbacks. By signing and submitting an application for processing, the owner(s) grant written permission for Greene County employees and their authorized agents to enter the owner(s) premises and conduct all necessary investigations and tests to report in an on-site study to the Planning Board, and/or Board of Zoning Adjustment, and/or County Commission.

A number of non-County organizations and agencies may be given notice of your application. These organizations may desire access to the property to conduct any investigations, but the owner(s) signature on an application does NOT grant permission for these organizations to enter the property. Such non-County organizations will be required to make individual arrangements with the owner(s) for access to the property. All owner(s) should be aware that a delay in the review by a non-County organization or agency may result in a delay in the application process.

4. The home occupation must be conducted within the principal dwelling, the garage or accessory building. The detached garage or accessory building must be located on the same lot as the dwelling, must not be larger than thirty-five percent (35%) of the floor area of the dwelling, and must not be located farther than fifteen (15) feet from the dwelling unless located in the rear yard.

5. No traffic shall be generated by such home occupation in greater volumes than would normally be expected in a residential neighborhood, and any need for parking generated by the conduct of such home occupation shall be met off the street and other than in a required front yard.

6. No commercial vehicle shall be used in connection with the home occupation, or parked on the property.

7. No outdoor display of goods or outside storage of materials used in the home occupation shall be permitted.
