### Audit Findings

#### Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-on-site audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.
Audit Methodology

Pre-Onsite Audit Phase
The Greene County Juvenile Detention Center (GCJDC) Agency PREA Coordinator (APC) and the Auditor had discussions concerning access to the facility and staff, the audit process, logistics for the onsite phase of the audit, and goals and expectations prior to the site visit. The PREA Auditor was in communication with the APC and Facility Administrator directly. The Facility Administrator/Superintendent serves as the facility’s PREA Compliance Manager (PCM). The Superintendent/PCM was very receptive to the audit process and well informed of the role of the Auditor and the expectations during each stage of the PREA audit.

The notification of the on-site audit at GCJDC was posted on January 24, 2019, six weeks prior to the date of the onsite audit. The posting of the notices was verified by photographs received electronically from the APC. The photographs provided with the Pre-Audit information indicated notices were posted strategically throughout the facility, accessible to residents, staff, visitors, contractors, and volunteers. The Auditor noticed that the notifications were placed in the lobby, hallways, living units, and common areas. The posted audit notices contained the Auditor’s contact information and included information regarding confidentiality. The notice was posted in English and Spanish and at eye levels easy for a person to see either standing or sitting. All residents in the facility during the time of the site visit spoke and read English. No correspondence was received during any phase of the audit.

Prior to the Auditor’s onsite visit to the facility, the Auditor worked with the APC in developing and completing the Pre-Audit Questionnaire (PAQ). This document identified the minimum information and supporting documents that the facility should submit to the Auditor before the onsite audit begins. The GCJDC PAQ was received on February 7, 2019, and included policies, procedures and supporting documentation which was within an adequate timeframe for review. The completed PREA Pre-Audit Questionnaire, policies and procedures, and supporting documentation were uploaded to a flash drive and mailed to the Auditor. This flash drive was received by the Auditor well over a month before the site visit.

An initial assessment was conducted of the information provided and it was determined the information was provided in detail on the flash drive. The documentation on the flash drive was well organized by each standard, including the identified provisions of each standard. Additional information requested during the site visit was provided or explained by the Superintendent/PCM.

The PCM had been previously provided a document by the Auditor titled, “Information Requested to Determine Staff and Residents to be interviewed during the On-site PREA Audit.” The document was completed and provided the Auditor onsite. The document requested the identification of the staff members who served and performed in specific PREA related specialized roles within the facility, including volunteers and contractors who have contact with residents. The document requested a list of security staff and their shift assignments and a resident population roster. Additionally, the request included information regarding residents who may be in vulnerable categories such as disabled; limited English proficient; intersex, gay, lesbian, bisexual and/or transgender residents; and residents housed in isolation. The Auditor communicated with the PCM to confirm schedules and to clarify specialized PREA roles. A current resident roster was also provided to the Auditor. As a result of the information received, the Auditor developed an interview schedule of specialized and random staff and residents, including targeted resident interviews.

The facility provided the lists and information before or during the site visit that assisted with the following determinations and interview selections:

The Auditor reviewed the lists/documents provided and conferred with the Superintendent/PCM in development of the interview schedule to ensure clarity regarding specialized PREA roles among staff. Internet research of the facility revealed no indication of litigation, U.S. Department of Justice involvement, or federal consent decrees. General and specific information about the facility and the programs and services provided are detailed on the facility’s website. An array of information, pictures of the facility and contact information may be accessed from the informative page. The facility’s website also contains PREA information including but not limited to the zero-tolerance and coordinated response policies. The PREA audit report for the initial audit in 2016 is located on the website.

**Onsite Audit Phase**

The on-site visit was conducted March 7, 2019 by Dwight L. Fondren (Auditor). The Auditor arrived onsite during the early morning hours in order to interview some staff members on the overnight shift and observe early morning operations. GCJDC random staff members working the overnight shift were interviewed immediately upon the Auditors’ arrival to the facility to reduce the accrual of overtime hours. Once the interviews were completed, an entrance conference was conducted. In addition to the Auditor, the entrance conference included the Superintendent/PCM. During the conference the Auditor discussed the information contained in the PAQ. Formal introductions were made and a review of the audit process, site visit activities and the itinerary. Site review Instructions were covered to include a description of the areas of the facility to be toured; operations and practices to be observed; and questions that should be asked of staff and residents to conduct a thorough site review. Additionally,
interview protocols to be used by the Auditor to interview staff and residents as part of the audit were discussed. Required documentation, relevant observations, the interview protocols, and the audit compliance tool were used to establish evidence of standard compliance. At the time of this audit, the facility employed 17 staff. The resident population was 5.

Upon completion of the entrance conference, a comprehensive site review of the facility was conducted and led by the PCM. The tour included all areas of the facility. The facility was clean, in good repair, and well maintained. All areas were viewed, including the administration area, medical area, intake area, kitchen, dining room/visitation area, leisure/recreation areas, an indoor gymnasium, and the living unit area. PREA-related informational posters and the PREA audit notice were observed posted throughout the facility. Additionally, informational pamphlets about PREA were found in areas where staff and youth have access. The notices contained large enough print to make them accessible and easy to see and read and in English and Spanish. Posted signs were observed regarding general PREA information including emergency and non-emergency numbers for assistance. The posted information included instructions on accessing the 24/7 hotline for reporting allegations and requesting advocacy services. Questions were answered by staff during informal interviews regarding detention resident activities and program services as the site review progressed throughout the facility. The site visit also included the outside grounds. Telephones were observed in the control room which was available for legal and personal contacts as well as reporting allegations of sexual abuse and sexual harassment; the telephones were in working order. The reporting process was discussed during the site review. Directions for accessing the crisis hotline were posted and included the limitations of confidentiality.

Male and female staff are required to knock on entrance doors to alert the residents that opposite gender staff were making rounds/inspections or entering the unit. Signs were observed in the detention area during the site review. Visibility is enhanced with the strategic use of cameras, mirrors and windows in doors. There are no cameras in bathrooms and reasonable privacy is provided to residents when they use the toilet, change clothes and shower. In addition to staff explaining to each resident during intake, the shower procedures are printed and posted at the entrance of the bathroom.

Medical Request Forms, grievance forms, and the locked boxes for each are posted in a common area, accessible to all residents and designated staff. All residents have access to writing utensils for completing the forms. Signage was posted indicating where residents were not allowed or only allowed with staff supervision. The doors to closets and storage rooms are kept locked.

A letter of Agreement exists with Child Advocacy Services to receive allegations of sexual abuse and sexual harassment and for the provision of advocacy services upon request. The Child Advocacy Services Representative was interviewed by phone and confirmed the advocacy services to be provided in accordance with the agreement. Documentation and interviews with the Nurse and Medical providers confirmed forensic medical examinations will be performed at Child Advocacy Services or University of Missouri Hospital and Clinics. The hospital's Sexual Assault Policy provides that a Sexual Assault Nurse Examiner (SANE) will conduct the examinations. According to the Hospital’s written Policy, when a SANE is not available, the Emergency Department Physician and Emergency Department Nurse will assume care of the patient and follow the protocols outlined in the Policy.

**Interviews**

Seventeen staff are currently employed at the facility that may have contact with residents. There were five residents at the start of the site visit. A number of GCJDC staff provides dual services and roles in the management of the PREA Programs. A total of nineteen staff were interviewed to include the Superintendent/PCM; Detention Juvenile Officers, Youth Leaders (from all three 8-hour shifts); an intermediate/upper management staff; one contract staff, specialized staff, and random staff. The random staff members interviewed covered all shifts and specialized staff members interviewed based on their job duties and PREA roles. Although 11 individuals were identified for specialized interviews,
the specialized interviews conducted included staff members in this category serving in more than one PREA related specialized role. The interviews with staff and contractor indicated their receipt of PREA training which was also verified by a review of documentation, including training materials. Staff interviews conducted by the Auditor were done in the privacy of a conference room. During this process the Auditor did not limit the interview questions to only those included in the protocols; rather, additional site specific questions were asked to use as a starting point for eliciting information about the facility’s compliance with the PREA Standards. All Responses to the interview questions were part of the Auditor’s compliance assessment. There are no on-site medical providers at the center. Resident interviews support staff’s compliance with the facility’s prohibition of cross-gender viewing and pat searches. This Auditor was provided evidence to ensure compliance to the PREA as documented in this report.

Onsite Documentation Review
The Auditor received many examples of documentation from resident and staff files as part of the Pre-Onsite Audit Phase. During the pre-onsite audit phase and the onsite audit phase, the Auditor reviewed a sample of training and personnel files of the staff selected to be interviewed, including documentation of criminal background checks. The PREA Pre-Audit Questionnaire and facility policies, procedures and supporting documentation were reviewed prior to the site visit and while onsite for interviewees and persons not interviewed. The secondary documentation reviewed included, but was not limited to,
Vulnerability Assessments, Grievance Form, Medical Request Form, PREA education and training acknowledgement forms, training records, checklists, sexual abuse coordinated response plan, annual staffing plan assessment, staff schedules, unannounced rounds reports, retaliation monitoring form, organization chart, and other documentation. The facility reports there were zero allegations of sexual abuse or sexual harassment in the past 12 months.

After the completion of the site visit process, an exit briefing was held. The attendees were the Superintendent/PCM, Assistant Superintendent and the Auditor. The exit briefing served to review the onsite process and review program strengths. The Superintendent was given the opportunity to ask additional questions about the activities of the day and the shared information. The time table for the submission of PREA Report was discussed as well.

**Facility Characteristics**

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Greene County Juvenile Detention Center (GCJDC) is part of the Greene County Juvenile Justice Center. The detention facility has a lobby area, several administrative offices, twenty-four (24) individual occupancy rooms (eight (8) in the east wing, twelve (12) in the north wing and four (4) holding), each wing and holding areas connect to a large common day room area that can be divided into two (2) separate areas but it is most often left open and shared by all residents, intake and sally port area, a classroom, a master control room, and kitchen/dining area. The two (2) housing/wing areas consist of one (1) room in each wing is for handicap accessible and one (1) room in each wing has a security camera. All the rooms are monitored by intercom and 15-minute room checks if occupied. Both housing/wings have a secured storage area. All the single rooms have windows to the outside, some face an internal courtyard, other’s face the external courtyard around the Green County Juvenile Court building. The classroom has a multiple use, however, is primarily used for school. It is a single room that can occupy up to twelve (12) residents and there is a large storage closet in the class room that remains secure when the room is not in use.

In the holding wing area are the four (4) holding rooms, a laundry room, medical room, a staff room, resident property room, intake/holding shower and interlock to the sally port. The four (4) holding rooms are connected to an intake/holding area outside the master control room. All four (4) holding rooms are monitored by camera and intercom when in use. Other than monitoring and location, the holding rooms are identical to other resident rooms. Residents remain in holding until medically cleared of communicable disease or infestation and cleared from suicide risk by the Clinical Services Coordinator. The medical room is equipped with locked cabinets, supplies, a sink and an exam table and is used primarily by the contracted nurses. All prescription medication is kept in the medical room in a locked cabinet. The intake/holding shower and the resident property room are connected for ease of securing the residents personal items as they are removed for the visual body search. There are two (2) interlock areas. The first connects the Greene County Juvenile Office, and visitor waiting and the Superintendent’s office to the detention center. This area is used to take residents to court, meetings with their attorney, meetings with their assigned DJO, and to admit visitors for visits. The second connects to the sally port. This is most often used when law enforcement is bringing a resident that has been taken into custody or in the event a resident is needed to be transported out of the detention facility to a medical appointment or placement.
The large day room has large windows that face the internal courtyard connected to the day room by a set of secured doors. The day room has furniture seating, two (2) game tables, a foosball table, stackable chairs, resident lockers for personal and hygiene items, a library section with multiple book shelves of all types books, two (2) water fountains, a couple of school desks for one-on-one work with the teacher, two (2) telephones that receive calls, and an “out of bounds” area for staff. The day room is the central point of the detention facility and connects to the housing wings, two (2) bathrooms for resident use, the class room, a hallway to the café, visiting rooms and multi-purpose room, and the holding/intake area. There are two (2) bathrooms in the day room area for resident use. There is a single shower unit in each bathroom, a toilet and two (2) sinks; however, there is never a time that more than one (1) resident is in the bathroom. Residents shower and address other personal hygiene needs (brushing teeth, etc.) in the evening before they go to bed and are provided the opportunity to take care of hygiene needs in the morning after breakfast as well.

The kitchen/dining area is called “The Café” and has seven (7) tables that are securely mounted to the floor. Each table seats four (4) residents. There is the capacity to serve meals from the kitchen; however, the staff chooses to keep the kitchen area secured while residents are present in the Café. There are large windows in the Café that face into a small courtyard area. These windows provide a lot of natural light into this area of the facility. There is a single occupancy restroom for resident use in the Café.

GCJDC has three (3) visitation rooms, two (2) are contact visitation rooms and can be monitored visually and by intercom from the master control room if necessary and the other is a no contact visitation room that cannot be visually monitored but is a secured area from the inside of the facility. There is a large multi-purpose area that is used for large muscle exercise. Residents are encouraged to participate in no contact activities during recreation time. Residents can have rec time in the yard or in the multipurpose room at the discretion of staff.

**Provision (a):**
An agency shall have a written policy mandating zero-tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency’s approach to preventing, detecting, and responding to such conduct.

The facility Policy mandates a zero-tolerance policy toward all forms of sexual abuse and sexual harassment. The policy outlines the facility’s approach to preventing, detecting, and responding to such conduct. The policy includes definitions of prohibited behaviors regarding sexual abuse and sexual harassment and includes sanctions for those found to have participated in prohibited behaviors. The Policy provides for the appointment of a PREA Coordinator by the Superintendent.

The Policy addresses detection of sexual abuse and sexual harassment through resident education, staff training, and intake screening for risk of sexual victimization and abusiveness. The Policy includes, but is not limited to, responding to sexual abuse and sexual harassment through reporting, investigations, assessments, crisis intervention, and disciplinary sanctions for residents and staff.

**Provision (b):**
An agency shall employ or designate an upper-level, agency-wide PREA Coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities.

The Facility Policy indicated a designated position, PREA Compliance Manager (PCM). The interview with the Superintendent/PCM, and observations, revealed that there is the time and authority to perform their PREA duties.

The evidence shows the Agency has designated an upper-level position of PREA Coordinator as verified through the organization chart; Policy; Job Description; review of the PREA Pre-Audit Questionnaire; and the interviews with the Superintendent/PCM and random staff. The PREA Coordinator has demonstrated she has sufficient time and authority to accomplish her PREA related responsibilities.

**Provision (c):**
Where an agency operates more than one facility, each facility shall designate a PREA compliance manager with sufficient time and authority to coordinate the facility’s efforts to comply with the PREA standards.
GCJDC does not contract with another facility to house its residents, according to the Policy and interview with the Superintendent/PCM.

**Conclusion:**
Based upon the review and analysis of the available documentation, the Auditor has determined the facility is compliant with this standard requiring a zero-tolerance policy toward sexual abuse and sexual harassment and the designation of a PREA Coordinator.

Provision (a):
The agency shall ensure that each facility it operates shall develop, implement, and document a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect residents against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration:
(1) Generally accepted detention and correctional/secure residential practices;
(2) Any judicial findings of inadequacy;
(3) Any findings of inadequacy from Federal investigative agencies;
(4) Any findings of inadequacy from internal or external oversight bodies;
(5) All components of the facility’s physical plant (including “blind spots” or areas where staff or residents may be isolated);
(6) The composition of the resident population;
(7) The number and placement of supervisory staff;
(8) Institution programs occurring on a particular shift;
(9) Any applicable State or local laws, regulations, or standards;
(10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and
(11) Any other relevant factors.

Facility Policy provides details for maintaining the staffing ratios. The staffing plan for GCJDC mandates three staff members per shift with one being a female. The weekly schedule reviewed indicated that the 1st shift has three staff members, 2nd shift has three to five staff members, and 3rd shift has three to four staff members. PREA training is required of all new hires, as well as PREA refresher courses provided throughout the year to better ensure resident safety. The camera system is monitored constantly and the provisions of the standard are taken into consideration regarding adequate staffing levels as confirmed through the interview with the Superintendent and review of staffing plan and observations. The work schedules are based on the staffing plan and facility policy.

Provision (b):
The agency shall comply with the staffing plan except during limited and discrete exigent circumstances, and shall fully document deviations from the plan during such circumstances.

The facility Policy states in the event that the staffing ratio is unable to be maintained during exigent circumstances, the deviation must be documented. The facility documents there have been no deviations to the staffing plan in the past 12 months. The facility is prepared to document any deviations from the staffing plan.

The GCJDC PREA Policy provides for a staff-to-resident ratio of 1:8 during the waking hours and 1:14 during the sleeping hours. The ratio during the sleeping hours may increase but will not be beyond the required ratio of 1:16 during the sleeping hours as indicated by the Policy and the interview with the Superintendent. The staff-to-resident ratio was in compliance during the site visit as observed during the comprehensive site review. Since the last PREA audit the average daily number of residents is six. The average daily number of residents on which the staffing plan is predicated is six.

Provision (c):
Whenever necessary, but no less frequently than once each year, for each facility the agency operates, in consultation with the Superintendent required by § 115.311, the agency shall assess, determine, and document whether adjustments are needed to:
(1) The staffing plan established pursuant to paragraph (a) of this section;
(2) Prevailing staffing patterns;
(3) The facility’s deployment of video monitoring systems and other monitoring technologies; and
(4) The resources the facility has available to commit to ensure adherence to the staffing plan.
GCJDC PREA Policy provides, at the least, an annual assessment of the staffing plan is conducted. The Staffing Plan Assessment is conducted annually with the latest being conducted in August 2018. In developing the plan, staff reviews areas such as the prevailing staffing patterns; deployment of video monitoring system; and occurrence of unannounced rounds. Facility Design and Technology, provides that administration in conjunction with the Superintendent assess the video monitoring system at least annually and document the assessment.

Provision (d):

In the past 12 months, the facility, in consultation with the agency PREA Coordinator, shall assess, determined, and documented whether adjustments are needed to the staffing plan established pursuant to paragraph (a) of this section; to prevailing staffing patterns; to the facility's deployment of video monitoring systems and other monitoring technologies and to the resources the facility has available to commit to ensure adherence to the staffing plan.

A review of the Greene County Detention Manual Chapter 2 (Administration), Greene County Detention Staffing Plan and the Unannounced Program Visit Forms it was determined that the facility has assessed, determined, and documented whether adjustments were needed to the staffing plan established pursuant to paragraph (a) of this section over the past 12 months. The supervisor stated that the deployment of video monitoring systems and other monitoring technologies and to the resources the facility has available to commit to ensure adherence to the staffing plan was considered.

Provision (e):

The facility shall implement a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The policy and practice should be implemented for night shifts as well as day shifts. In addition, the facility should have a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility.

A review of the Greene County Detention Manual Chapter 2 (Administration), it was determined that the facility has a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The policy and practice is implemented for night shifts as well as day shifts. Copies of the unannounced rounds conducted by the Superintendent/POM and Assistant Superintendent were reviewed. In addition, the facility policy prohibits staff from alerting other staff members that these supervisory rounds are occurring.

Conclusion:
Based upon the review and analysis of the available evidence, the Auditor has determined the facility is in compliance with this standard regarding supervision and monitoring.

**Provision (a):**
The facility shall not conduct cross-gender strip searches or cross-gender visual body cavity searches (meaning a search of the anal or genital opening) except in exigent circumstances or when performed by medical practitioners.

GCJDC PREA Policy on Limits to Cross Gender Viewing and Searches prohibits cross-gender strip searches and cross-gender visual body cavity searches. There is no evidence of cross-gender strip searches or cross-gender visual body cavity searches occurring at the facility. Based on the review of the Pre-audit questionnaire and according to the Superintendent, no such searches have been conducted.

**Provision (b):**
The agency always refrains from conducting cross-gender pat-down searches of female residents, except in exigent circumstances. In addition, the agency shall always refrain from restricting female residents’ access to regularly available programming or other outside opportunities in order to comply with this provision.

GCJDC PREA Policy provides that staff will only conduct cross-gender pat-down searches of females only in exigent circumstances. There should be both male and female staff on duty at all times. No cross gender pat down searches, or visual searches should ever occur unless in the rarest of exigent circumstances and only after contacting the detention superintendent and the justification for the search must be documented. Interviews with Staff indicated that cross-gender pat-down searches have not occurred at the facility, but the facility is prepared for them to be conducted in exigent circumstances.
Based on the review of the Pre-audit questionnaire; and staff interviews; training sign-in sheets; and training acknowledgement statements, the facility follows this provision of the standard.

**Provision (c):**
The facility shall document and justify all cross-gender strip searches, cross-gender visual body cavity searches, and cross-gender pat-down searches.

The Policy prohibits cross-gender strip searches and cross-gender visual body cavity searches. Cross-gender pat-down searches may be conducted only in exigent circumstances which random staff interviews summarized as an extreme emergency. The Policy indicates that in the event a cross-gender search is warranted pursuant to an emergency circumstance, it must be approved by the Superintendent and the justification for the search documented. Such searches would be documented on a form currently used for all searches which have been used for same sex searches. The form requires the staff to record the reason for the search. The evidence shows the facility is prepared to document and justify all cross-gender pat-down searches.

**Provision (d):**
The facility shall implement policies and procedures that enable residents to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Such policies and procedures shall require staff of the opposite gender to announce their presence when entering a resident housing unit. In facilities (such as group homes) that do not contain discrete housing units, staff of the opposite gender shall be required to announce their presence when entering an area where residents are likely to be showering, performing bodily functions, or changing clothing.

GCJDC PREA Policy states the facility will enable residents to shower, perform bodily functions, and change clothes without non-medical staff of the opposite gender viewing them except in exigent circumstances or during routine room checks. Staff members of the opposite gender are required to knock and/or announce themselves upon entering the unit. This practice was confirmed through observation of signage indicating such and interviews with staff. The evidence shows residents can shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia. Additionally, viewing of the cameras and staff interviews confirmed that residents are not directly viewed by staff when showering, using the toilet or changing clothes.

**Provision (e):**
The facility shall not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, it may be determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

GCJDC Policy prohibits the search of transgender or intersex residents solely for the purpose of determining the residents' genital status. Staff interviews verified no such searches have occurred in the past 12 months. According to the Policy, if the resident's genital status is unknown, it may be determined during conversations with the resident, by reviewing medical records, or by learning that information as part of a broader medical examination conducted in private by a medical practitioner. One hundred percent of GCJDC staff received the training on conducting cross-gender pat-down searches and searches of transgender and intersex residents. Staff interviews confirmed they are aware facility policy prohibits them from conducting a physical examination of transgender or intersex resident solely for the purpose of determining the resident’s genital status. Based on the documentation reviewed and staff interviews, the facility meets this provision of the standard.
Provision (f): The agency shall train security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex residents, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

GCJDC PREA Policy states that staff shall be trained in how to conduct cross-gender pat-down searches, and searches of transgender and intersex residents, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. The documentation and staff interviews support the training is conducted at least annually. Training participation is documented with sign-in sheets and training acknowledgement forms. The evidence shows staff is trained in how to conduct cross-gender pat-down searches, and searches of transgender and intersex residents, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

Conclusion: Based on the reviewed documentation and interviews, the facility follows this provision of the standard.

Provision (a):
The agency shall take appropriate steps to ensure that residents with disabilities (including, for example, residents who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps shall include, when necessary to ensure effective communication with residents who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with residents with disabilities, including residents who have intellectual disabilities, limited reading skills, or who are blind or have low vision. An agency is not required to take actions that it can demonstrate would result in a fundamental alteration in the nature of a service, program, or activity, or in undue financial and administrative burdens, as those terms are used in regulations promulgated under Title II of the Americans With Disabilities Act, 28 CFR 35.164.

The facility Policy addresses the provision of support services for disabled residents by providing these residents the equal opportunity to participate in or benefit from all aspects of the facility’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The Policy prohibits use of resident interpreters, resident readers, or other types of resident assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident’s safety, performance of first responder duties, or the investigation of the allegations. Staff interviews and an interview with a contractor confirmed this information.

Provision (b):
The agency shall take reasonable steps to ensure meaningful access to all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment to residents who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary.

A language Access Metro Project – Language Interpreter Services is available and can be accessed by staff 24/7. The Resident Handbook is in English and Spanish. The evidence shows residents with disabilities and who may be limited English proficient are provided equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment.
sexual harassment. All staff interviewed confirmed residents are not used as interpreters and understand prior arrangements have been made regarding language interpreters. The Resident Handbook is printed in English and Spanish. The PREA audit notice was printed in English and Spanish. The evidence shows the facility ensures access to all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment to residents who are limited English proficient, including taking steps to provide interpreters who can interpret effectively, accurately, and impartially, using any necessary specialized vocabulary.

**Provision (c):**
The agency shall not rely on resident interpreters, resident readers, or other types of resident assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident’s safety, the performance of first-response duties under § 115.364, or the investigation of the resident’s allegations.

According to Policy the facility prohibits the use of resident interpreters, resident readers or any kind of resident assistants except when a delay in obtaining interpreter services could jeopardize a resident’s safety, performance of the first responder duties, or the investigation of the allegation. Staff interviews confirmed residents have not been used to relate PREA information to or from other residents in the past 12 months. There were no residents in need of an interpreter during the site visit.

**Conclusion:**
Based upon the review and analysis of the evidence, the Auditor has determined the facility is compliant with this standard regarding residents with disabilities and residents who are limited English Proficient. Residents with disabilities are provided equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

Provision (a) & (f):
(a) The agency shall not hire or promote anyone who may have contact with residents, and shall not enlist the services of any contractor who may have contact with residents, who—
(1) Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997);
(2) Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or
(3) Has been civilly or administratively adjudicated to have engaged in the activity described in paragraph (a)(2) of this section.

(f) The agency shall also ask all applicants and employees who may have contact with residents directly about previous misconduct described in paragraph (a) of this section in written applications or interviews for hiring or promotions and in any interviews or written self-evaluations conducted as part of reviews of current employees. The agency shall also impose upon employees a continuing affirmative duty to disclose any such misconduct.

Facility Policy addresses hiring and promotion processes and decisions and background checks. The Policy is aligned with the requirements of the provisions of the standard and provides background checks occur prior to employment and every year thereafter. Initial background checks and annual checks were reviewed while on site. Additional personnel information reviewed during the pre-audit and the onsite audit phases included: Pre-Hire Interview Questions; New Hire Application Packet and Current Staff Applications. The interview with the Human Resource Specialist, Superintendent and a review of Policy, provided details about the hiring process, completion of background checks, and the grounds for termination in accordance with the PREA standard. According to the interview, staff has a continuing duty to report related misconduct and omission of sexual misconduct or providing false information will be grounds for termination. The forms completed and included in the personnel files are in response to the above provisions of this standard.

According to facility Policy, all applicants are asked about any prior misconduct involving any sexual activity. In addition, the GCJDC shall not hire or promote anyone who has been civilly or administratively adjudicated to have been convicted of engaging in or attempted to engage in sexual activity by any means. Also, the agency does not hire anyone who has engaged in sexual abuse in a prison, jail, community confinement facility, or anyone, who has used or attempted to use force in the community to engage in sexual abuse.

Provision (b):
The agency shall consider any incident of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents.

The facility Policy states any incidents of sexual harassment by a staff member will be taken into consideration if the staff member is eligible for promotion. The interview with the Superintendent was aligned with the standard. The interview questions for employment also address previous misconduct. The evidence shows the facility considers any incident of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents. Based on the review of the personnel files, records provided during the pre-audit phase, and the interview with the Superintendent, the facility follows this provision of the standard.

Provisions (c) & (d):
(c) Before hiring new employees or (d) contractors who may have contact with residents, the agency shall:
(1) Perform a criminal background records check;
(2) Consult any child abuse registry maintained by the State or locality in which the employee would work; and
(3) Consistent with Federal, State, and local law, make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

The agency policy requires background checks to occur prior to residents receiving services from contractors and volunteers and confirmed by the Superintendent’s interview. Additionally, best efforts should be made to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. Based on the review of documentation and interview with the Superintendent, the facility follows this provision of the standard.

Provision (e):
The agency shall either conduct criminal background records checks at least every five years of current employees and contractors who may have contact with residents or have in place a system for otherwise capturing such information for current employees.

The agency policy is aligned with the requirements of the provisions of the standard and provides background checks occur prior to employment and every five years thereafter. Initial background checks and five-year checks were reviewed while onsite and during the pre-audit phase. This was also confirmed during the Superintendent’s interview. Based on the review of documentation and the interview, the evidence shows the facility practices are aligned with the provisions of this standard.

Provision (g):
Material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination.

Facility Policy states material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. Based on the review of the documentation and the interview with the Superintendent, the evidence shows the facility follows this provision of the standard.

Provision (h):
Unless prohibited by law, the agency shall provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work.

The interview with the Superintendent confirmed the facility would provide this information if requested to do so. Facility Policy also states the information would be provided when requested unless it is prohibited by law to provide the information.

Conclusion:
Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with the provisions of the standard regarding hiring and promotion decisions.

Provisions (a) & (b):
(a) To the extent the agency is responsible for investigating allegations of sexual abuse, the agency shall follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions. (b) The protocol shall be
developmentally appropriate for youth and, as appropriate, shall be adapted from or otherwise based on the most recent edition of the U.S. Department of Justice’s Office on Violence Against Women publication, “A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents,” or similarly comprehensive and authoritative protocols developed after 2011.

Agency policy provides for the uniform Protocols to be followed. The Protocol is outlined regarding appropriateness for youth and adults. The facility does not conduct administrative or criminal investigations. Referrals are made to Missouri State Highway Patrol administrative investigations and criminal investigations. Forensic medical exams, when needed, would be conducted at the Mercy Corporate Health Medical Clinic SANE Clinic Protocol. Forensic exams would be conducted at no cost to the youth or their family. No forensic medical exams were conducted during the previous 12 months. A review of Children’s Advocacy Services Sexual Assault Policy and Protocols verified the facility has an agreement with the Children’s Advocacy Services offering victim advocate services. Staff interviews confirmed an understanding of the facility’s protocol for obtaining usable physical evidence if a resident alleges sexual abuse and knowledge of the entities responsible for conducting investigations.

**Provision (c):**
The agency shall offer all residents who experience sexual abuse access to forensic medical examinations whether on-site or at an outside facility, without financial cost, where evidentiary or medically appropriate.

The Policy states forensic medical examinations will be conducted and/or performed by Child Advocacy Services If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified medical practitioners and Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) at local hospitals where possible. The agency shall document its efforts to provide SAFEs or SANEs. The Sexual Assault Policy of the Hospital states that the medical forensic examination will be conducted by a SANE or SAFE. The facility Policy states that the services will be provided at no cost to the victim. The Nurse’s interview was aligned with the facility Policy.

**Provisions (d) & (e):**
(d) The agency shall attempt to make available to the victim a victim advocate from a rape crisis center. If a rape crisis center is not available to provide victim advocate services, the agency shall make available to provide these services, a qualified staff member from a community-based organization or a qualified agency staff member. Agencies shall document efforts to secure services from rape crisis centers. For the purpose of this standard, a rape crisis center refers to an entity that provides intervention and related assistance, such as the services specified in 42 U.S.C. 14043g(b)(2)(C), to victims of sexual assault of all ages. The agency may utilize a rape crisis center that is part of a governmental unit as long as the center is not part of the criminal justice system (such as a law enforcement agency) and offers a comparable level of confidentiality as a nongovernmental entity that provides similar victim services. (e) As requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.

According to the agreement, with the Children’s Advocacy Services, the supportive services to victims include access to 24-hour reporting and contact for advocacy service; emotional support; accompaniment through forensic examination and investigative interview upon request; and provision of information and resources. The Program Manager confirmed that advocacy services will be provided in accordance with the agreement. The interview with the PCM confirmed the resident and/or facility staff members are able to utilize the hotline to request a victim advocate.
Provisions (f) & (g):
(f) To the extent the agency, itself, is not responsible for investigating allegations of sexual abuse, the agency shall request that the investigating agency follow the requirements of paragraphs (a) through (f) of this section. (g) The requirements of paragraphs (a) through (f) of this section shall also apply to:
(1) Any State entity outside of the agency that is responsible for investigating allegations of sexual abuse in juvenile facilities; and (2) Any Department of Justice component that is responsible for investigating allegations of sexual abuse in juvenile facilities.

Allegations of sexual abuse that are criminal in nature are conducted by the Missouri State Highway Patrol (MSHP). The MSHP is required to follow the agency protocol regarding sexual abuse/assault investigations. Agency policy provides for the uniform Protocols to be followed. The Protocol is outlined regarding appropriateness for youth and adults.

Provision (h):
For the purposes of this standard, a qualified agency staff member or a qualified community-based staff member shall be an individual who has been screened for appropriateness to serve in this role and has received education concerning sexual assault and forensic examination issues in general.

The facility has an agreement with the Children’s Advocacy Services offering victim advocate services. The Program Manager states that her staff has certification for completing their PREA Victim Support Staff Training. The Children’s Advocacy Services representative stated that staff is trained to provide supportive services to victims include access to 24-hour reporting and contact for advocacy service; emotional support; accompaniment through forensic examination and investigative interview upon request; and provision of information and resources.

Conclusion:
Based upon the review and analysis of the available evidence, the Auditor has determined the facility is in compliance with the provisions of this standard.

Provision (a):
The agency shall ensure that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment.

The Policy directs staff to report all allegations of sexual abuse and sexual harassment and to document the reports. Staff members are aware of the Policy requirements as verified through their
interviews. The facility reports no allegations of sexual abuse and no allegation of sexual harassment. The facility Policy and the MOU verifies the cooperation between the facility staff and the Missouri State Highway Patrol (MSHP). During the interview with the MSHP Representative the training and experience of investigators that may be assigned to conduct investigations was addressed.

**Provision (b) and (c):**

The agency shall have in place a policy to ensure that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations, unless the allegation does not involve potentially criminal behavior. The agency shall publish such policy on its website or, if it does not have one, make the policy available through other means. The agency shall document all such referrals. (c): If a separate entity is responsible for conducting criminal investigations, such publication shall describe the responsibilities of both the agency and the investigating entity.

The PREA Guidelines-Personnel Policy & Procedures detail a comprehensive set of procedures to ensure that administrative or criminal investigations are completed for all allegations of sexual abuse and sexual harassment. This policy describes the responsibilities of both the facility and the investigating agencies. This was verified in the interview with the Superintendent. For all cases of suspected abuse or neglect, a call shall be made to Child Abuse and Neglect (OHI) immediately or as soon as possible after learning of the incident. If the allegation involves potentially criminal behavior, the Superintendent or designee shall contact local law enforcement. All incidents shall be documented in an Informational Incident Report. There were no PREA-related allegations made during the previous 12 months. Staff interviews and training documentation confirmed that all staff have been trained on their responsibilities as mandatory child abuse reporters and understand their responsibilities to call OHI and local law enforcement for sexual abuse incidents or suspicions.

The facility’s website provides the information and related policies for reporting allegations of sexual abuse. A third-party reporting form is also on the website. Reporting information is also posted in various areas of the facility including but not limited to living units. The posted information is accessible to residents, staff, contractors and visitors. The Policy and interviews confirmed allegations of sexual abuse and sexual harassment are investigated. According to the PCM, Administrative investigations are conducted by the trained facility investigators and sexual abuse allegations that are criminal in nature are investigated by the MSHP.

**Provision (d):**

Any State entity responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in juvenile facilities shall have in place a policy governing the conduct of such investigations.

The facility and the MSHP have policies and a MOU governing investigations.

**Provision (e):**

Any Department of Justice component responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in juvenile facilities shall have in place a policy governing the conduct of such investigations.

The Department of Justice is not responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment at GCJDC.

**Conclusion:**

Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with this standard regarding policies to ensure referrals of allegations for investigations.

Provision (a):
The agency shall use all information obtained pursuant to § 115.341 and subsequently to make housing, bed, program, education, and work assignments for residents with the goal of keeping all residents safe and free from sexual abuse.

The facility Policy provides guidance to staff regarding the use of the information obtained from the screening forms. The staff interviews and information obtained through the administration of the SAVAC and other screening instrument assist in determining bed, education and other program assignments with the goal of keeping all residents safe and meeting the needs of each resident. This information was verified through a review of specific samples of the aforementioned completed screening instrument. The facility also uses additional screening instruments.

Provision (b):
Residents may be isolated from others only as a last resort when less restrictive measures are inadequate to keep them and other residents safe, and then only until an alternative means of keeping all residents safe can be arranged. During any period of isolation, agencies shall not deny residents...
daily large-muscle exercise and any legally required educational programming or special education services. Residents in isolation shall receive daily visits from a medical or mental health care clinician. Residents shall also have access to other programs and work opportunities to the extent possible.

GCJDC Policy indicates that residents will not be placed in isolation or on a high risk status as a means of keeping them safe from discrimination, harassment, violence or abuse. Staff are expected to immediately intervene and address any behaviors that threaten the safety of another resident. During “Post-Orientation”, after a resident is orientated, staff shall assign that resident to a group. The resident may be placed on no-contact separation from other residents if: a. they were involved in the same crime for which they are being held; if they pose a serious or credible threat to another resident; if another resident poses a serious or credible threat to them; or if a resident makes this request due to prior conflict with another resident. Placing youth on No Contact separation requires approval of the Superintendent or Assistant Superintendent. The resident shall immediately begin participating in regular programming after orientation based on the information obtained with the goal of keeping the residents safe, including from sexual abuse/assault and harassment.

Provision (c):
Lesbian, gay, bisexual, transgender, or intersex residents shall not be placed in particular housing, bed, or other assignments solely on the basis of such identification or status, nor shall agencies consider lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of likelihood of being sexually abusive.

The Policy prohibits placing lesbian, bisexual, transgender, or intersex residents in specific housing or making other assignments solely based on how the residents identify or their status. The Policy prohibits staff from considering the identification as an indicator that these residents may be more likely to be sexually abusive. Based on the needs of the juvenile, room assignment can be reassessed at the time of orientation and at other times as needs present. Room assignment will not be made based on sexual orientation or gender identity or gender expression. During the comprehensive site review, there were no rooms observed to be reserved for transgender or intersex residents. The restroom/showers were observed and were configured for a reasonable amount of privacy.

Provision (d):
In deciding whether to assign a transgender or intersex resident to a facility for male or female residents, and in making other housing and programming assignments, the agency shall consider on a case-by-case basis whether a placement would ensure the resident’s health and safety, and whether the placement would present management or security problems.

The Policy also provides that housing and program assignments for transgender or intersex residents would be made on a case-by-case basis and these residents would not be placed in particular or special housing which was evident from staff interviews. There were no transgender or intersex residents in the facility during the site visit and this audit period. The PREA Compliance Manager’s interview indicated that the facility would consider on a case-by-case basis whether a placement would ensure the resident’s health and safety, and whether the placement would present management or security problems.

Provision (e):
Placement and programming assignments for each transgender or intersex resident shall be reassessed at least twice each year to review any threats to safety experienced by the resident.

The Policy states placement and programming assignments for each transgender or intersex resident shall be reassessed at least twice each year. This function would be done to review any threats to safety experienced by the resident. GCJDC PCM is aware of the requirement. The PCM confirmed
each transgender or intersex resident would be reassessed at least twice each year to review any threats to safety experienced by the resident.

**Provision (f):**
The Agency shall ensure that Transgender or intersex resident’s own views with respect to his or her own safety are given serious consideration when making facility and housing placement decisions and programming assignments.

The Superintendent stated that although they have not received any transgender or intersex residents over the past 12 months, the Agency policy states that Transgender or intersex resident’s own views with respect to his or her own safety would be given serious consideration when making facility and housing placement decisions and programming assignments.

**Provision (g):**
Transgender and intersex residents shall be given the opportunity to shower separately from other residents.

The Policy states transgender or intersex residents shall be given the opportunity to shower separately from other residents which is also supported by staff interviews. There are no cameras in bathrooms and reasonable privacy is provided to residents when they use the toilet, change clothes and shower. There is never a time that more than one (1) resident is in the bathroom. In addition to staff explaining to each resident during intake, the shower procedures are printed and posted at the entrance of the bathroom.

**Provision (h):**
If a resident is isolated pursuant to paragraph (b) of this section, does the facility clearly document: The basis for the facility’s concern for the resident’s safety and the reason why no alternative means of separation can be arranged?

GCJDC Policy indicates that residents will not be placed in isolation or on a high risk status as a means of keeping them safe from discrimination, harassment, violence or abuse. Staff are expected to immediately intervene and address any behaviors that threaten the safety of another resident. All incidents of isolation are documented.

**Provision (i):**
In the case of each resident who is isolated as a last resort when less restrictive measures are inadequate to keep them and other residents safe, does the facility afford a review to determine whether there is a continuing need for separation from the general population EVERY 30 DAYS?

The Superintendent stated that no residents have been put in isolated status over 30 days. If so, the agency would follow the requirements of this standard.

**Conclusion:**
Based upon the review and analysis of the available evidence, the Auditor has determined the facility is fully compliant with this standard regarding use of screening information.

Provision (a):
The agency shall provide multiple internal ways for residents to privately report sexual abuse and sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents.

GCJDC Policy 2.7, 3-10 covers this standard under Abuse, Neglect Reporting. Residents have several ways to report incidents. They also have established hotlines for both staff and residents to use to report PREA incidents. The Auditors tried the phone number while on–site and it worked appropriately. Residents may report allegations of sexual abuse or sexual harassment by telephone through the 24-hour hotline of an agency not a part of the facility as confirmed by resident interviews, posters, staff, and posted phone instructions. Residents may use the telephone, located on each unit, to privately report sexual abuse and sexual harassment. The telephone was tested during the comprehensive site review and was found to be in working order. Staff members receive information on how to report allegations of sexual abuse or sexual harassment through policies and procedures, training, and staff meetings.

Provision (b):
The agency shall also provide at least one way for residents to report abuse or harassment to a public or private entity or office that is not part of the agency and that is able to receive and immediately forward resident reports of sexual abuse and sexual harassment to agency officials, allowing the resident to remain anonymous upon request. Residents detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

Residents may request the use of the telephone located in the control room. Staff are required to dial all calls. However, when calls are made to the Hotline for Child Abuse or the Children's Advocacy Services, the residents are allowed privacy to report an allegation of abuse and/or request advocacy services. Signs are posted explaining how to access non-emergency numbers for agencies, including the Police Division. The resident is also instructed on the signage to dial 911 for emergencies. GCJDC
staff revealed staff could use the emergency phone to report allegations of abuse. Allegations of sexual abuse have not been reported during this audit period. The facility does not detain residents solely for civil immigration purposes.

Provision (c):
Staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

GCJDC requires all staff to report immediately, in accordance with GCJDC PREA Policy guidelines, any knowledge, suspicion, or information regarding an incident of offender sexual abuse or offender sexual harassment. All staff are required to report retaliation against offenders or staff who reported such an incident, and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. The staff interviews confirmed the methods available to residents for reporting allegations of sexual abuse and sexual harassment. Staff members are required to accept third-party reports and to document verbal reports. The resident interviews demonstrated their familiarity with the various ways they may report either in person, in writing, by phone, completing a grievance or Medical Request Form, or through a third-party.

Provision (d):
The agency shall provide a method for staff to privately report sexual abuse and sexual harassment of residents.

The staff interviews revealed staff can privately report allegations of sexual abuse. The interviews collectively identified the following ways a report can be made privately: use of the telephone on the living units; use of telephone in an office; third-party reporting form online; report by email to administrative staff; and/or talk to supervisor in private.

Conclusion:
Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with this standard regarding resident reporting.

Provision (a):
An agency shall be exempt from this standard if it does not have administrative procedures to address resident grievances regarding sexual abuse.

The Auditor confirmed GCJDC Standard 7.3 has administrative procedures to address resident grievances regarding sexual abuse as determined by the review of Policy on Juvenile Rights. All grievances shall be handled expeditiously and without threats of or reprisals against the juvenile.

Provision (b):
(1) The agency shall not impose a time limit on when a resident may submit a grievance regarding an allegation of sexual abuse.
(2) The agency may apply otherwise-applicable time limits on any portion of a grievance that does not allege an incident of sexual abuse.
(3) The agency shall not require a resident to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse.
(4) Nothing in this section shall restrict the agency’s ability to defend against a lawsuit filed by a resident claiming the applicable statute of limitations has expired.

The facility Policy provide for the above provisions. Based on the review of the Resident Handbook, Administrative Review of Grievance form, resident interviews, and observations, the facility provides relevant information to the residents and has timelines in place to adhere to this provision of the standard.

Provision (c):
The agency shall ensure that—
(1) A resident who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint, and
(2) Such grievance is not referred to a staff member who is the subject of the complaint.
According to the Policy, formal and informal staff interviews, and observations, residents are not required to give a grievance to a staff member and staff members are not permitted to place a grievance in the box for the resident. A locked grievance box is located on each housing unit.

**Provision (d):**
(1) The agency shall issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance.
(2) Computation of the 90-day time period shall not include time consumed by residents in preparing any administrative appeal.
(3) The agency may claim an extension of time to respond, of up to 70 days, if the normal time period for response is insufficient to make an appropriate decision. The agency shall notify the resident in writing of any such extension and provide a date by which a decision will be made.
(4) At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly-noticed extension, the resident may consider the absence of a response to be a denial at that level.

There were no grievances filed that alleged sexual abuse in the 12 months preceding the audit. Based on the review of the Policy, resident interviews and Pre-audit questionnaire and associated memos of non-occurrence by the Superintendent, evidence shows the facility follows this provision of the standard.

**Provision (e):**
(1) Third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, shall be permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse, and shall also be permitted to file such requests on behalf of residents.
(2) If a third party, other than a parent or legal guardian, files such a request on behalf of a resident, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.
(3) If the resident declines to have the request processed on his or her behalf, the agency shall document the resident’s decision.
(4) A parent or legal guardian of a juvenile shall be allowed to file a grievance regarding allegations of sexual abuse, including appeals, on behalf of such juvenile. Such a grievance shall not be conditioned upon the juvenile agreeing to have the request filed on his or her behalf.

The Policy and the Third Party Reporting Form provide that third parties may file a grievance on behalf of residents and such action is not conditioned upon the resident agreeing to the filing of the grievance. There were no grievances alleging sexual abuse filed in the 12 months preceding the audit in which the resident declined third-party assistance. Based on the review of the Pre-audit questionnaire, and associated memos of non-occurrence, evidence shows the facility follows this provision of the standard.

**Provision (f):**
(1) The agency shall establish procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse.
(2) After receiving an emergency grievance alleging a resident is subject to a substantial risk of imminent sexual abuse, the agency shall immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken, shall provide an initial response within 48 hours, and shall issue a final agency decision within five calendar days. The initial response and final agency decision shall document the agency’s determination whether the resident is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance.
Greene County Detention Manual Juvenile Grievance Procedures and Reporting Section 7.3 provides for this provision of the PREA Standard. Once the emergency grievance is received, it is dealt with through the appropriate administrative channels and Policy. Residents that have made allegations of sexual harassment, abuse or assault will be notified of a final agency decision within five calendar days.

**Provision (g):**
The agency may discipline a resident for filing a grievance related to alleged sexual abuse only where the agency demonstrates that the resident filed the grievance in bad faith.

The Policy requires the actions of this standard provision. During the past 12 months, there were no resident grievances alleging sexual abuse that resulted in disciplinary action by the agency against the resident for having filed the grievance in bad faith. Based on the review of the Policy, associated memos of non-occurrence, and posted information, evidence shows the facility follows this provision of the standard.

**Conclusion:**
Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with this standard regarding exhaustion of administrative remedies.

An acknowledgement brochure specific to the review of the reporting and advocacy services contains information regarding the advocacy services to be provided by the Children’s Advocacy Services.

Provision (c):
The agency shall maintain or attempt to enter into memoranda of understanding or other agreements with community service providers that are able to provide residents with confidential emotional support services related to sexual abuse. The agency shall maintain copies of agreements or documentation showing attempts to enter into such agreements.

Provision (a):
The agency shall establish a policy to protect all residents and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other residents or staff and shall designate which staff members or departments are charged with monitoring retaliation.
The GCJDC Policy states the facility shall protect all residents and staff from retaliation who report sexual abuse, sexual harassment or cooperate with sexual abuse or sexual harassment investigations. All staff are responsible for monitoring and reporting each other and other residents for the possibility of retaliation against youth or staff for filing a formal grievance or cooperating with the administrative or criminal investigation. The Superintendent is responsible for monitoring retaliation.

**Provision (b):**
The agency shall employ multiple protection measures, such as housing changes or transfers for resident victims or abusers, removal of alleged staff or resident abusers from contact with victims, and emotional support services for residents, or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

Staff interviews confirmed the facility would protect residents and staff from retaliation for sexual abuse and sexual harassment allegations. Protective measures would include housing changes, transfers, removing alleged abusers, and emotional support services. The Superintendent identified protective measures that are aligned with the Policy and standard, including separating the alleged abuser from the alleged victim. The Superintendent was knowledgeable on what to look for and what to do with respect to retaliation against, or by, youth and/or staff. This includes periodic status checks. There were no instances of actual or threatened retaliation during the previous 12 months.

**Provision (c):**
For at least 90 days following a report of sexual abuse, the agency shall monitor the conduct or treatment of residents or staff who reported the sexual abuse and of residents who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by residents or staff, and shall act promptly to remedy any such retaliation. Items the agency should monitor include any resident disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The agency shall continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need. The Policy requires the monitoring of items identified in this provision of the standard. Superintendent explained during the interview how she would discharge those duties, including monitoring the items identified in the standard and whether a resident filed a grievance alleging sexual abuse or sexual harassment. Retaliation monitoring would occur for 90 days to see if there are any changes that may suggest possible retaliation by residents or staff, and shall act promptly to remedy any such retaliation, according to Policy. The monitoring will continue beyond 90 days, if the initial monitoring indicates a continuing need. There have been no incidents of retaliation during the 12 months preceding the audit.

**Provision (d):**

When the quality of evidence appears to support criminal prosecution, the agency shall conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.

Investigations that are criminal in nature are investigated by the Missouri State Highway Patrol as stated by staff interviews and Agency Policy.

**Provision (f):**
The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person’s status as resident or staff. No agency shall require a resident who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.

GCJDC Policy states the credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and not be determined by the person’s status as a resident or staff. Additionally, no resident who alleges sexual abuse will be subjected to a polygraph examination or other truth telling device as a condition for proceeding with the investigation of the allegation.
Provision (g):
Administrative investigations:
1. Shall include an effort to determine whether staff actions or failures to act contributed to the abuse;
2. Shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

The Policies, interviews and training documentation are inclusive of this provision of the standard. The Detention Administrators have been identified as administrative investigators. The investigators have received the regular PREA training as evident through documentation. The GCJDC staff has received training in first responder duties and understanding the agency’s protocol for obtaining usable physical evidence if a resident alleges sexual abuse, as confirmed by a review of training log, and curriculum.

No criminal investigations have been conducted at the facility during this audit period.

Provision (i):
Substantiated allegations of conduct that appears to be criminal shall be referred for prosecution.

Provision (k):
The departure of the alleged abuser or victim from the employment or control of the facility or agency shall not provide a basis for terminating an investigation.

Staff shall be subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies.

The Green County Detention Center (GCJDC) PREA Policy and Procedures states that staff, volunteers, and contractors who engage in inappropriate contact with any Juvenile, including sexual assault or harassment, will be reported to the Children’s Division and/or the appropriate law enforcement authorities for purposes of investigation and prosecution as necessary. Staff engaging in inappropriate contact with any Juvenile, including sexual assault or harassment, will be subject to disciplinary action up to and including termination of employment. The interview with the Superintendent confirmed the Policy.

Provision (b):
Termination shall be the presumptive disciplinary sanction for staff who have engaged in sexual abuse.

The Policy states that termination shall be the presumptive disciplinary sanction for staff who has engaged in sexual abuse with a resident as confirmed by the Superintendent. The sanction for a substantiated finding of sexual abuse is presumed to be termination in that such criminal charges usually result in incarceration. Any disciplinary action taken in a specific case depends on a number of variables and should be commensurate to the nature and circumstances of the acts committed, among other considerations.

Provision (c):
Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than engaging in sexual abuse) shall be commensurate with the nature and circumstances of the acts committed, the staff member’s disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories.

GCJDC Policy states all terminations for violations of the facility’s sexual abuse or sexual harassment policies, or staff resignations related to violations of this policy, shall be reported to law enforcement, unless the activity is clearly not criminal. In addition, it shall be reported to relevant licensing bodies.

**Conclusion:**
Based upon the review of Policy and interview, the Auditor has determined the facility is compliant with this standard regarding disciplinary sanctions for staff. GCJDC Policy covers this standard. They had no incidents to report.

**Provision (a):**
A resident may be subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding that the resident engaged in resident-on-resident sexual abuse or following a criminal finding of guilt for resident-on-resident sexual abuse.

The GCJDC PREA Policy and Procedures, Discipline addresses an administrative process for dealing with rule violations and references the policy that deals with discipline. Sanctions are directly related to the seriousness of the negative behavior. The interview with the Superintendent/PCM revealed the process regarding allegations of resident-on-resident abuse which can include the resident being removed from the facility and placed in the detention center during the investigation by law enforcement.

GCJDC policy states that youth found to have sexually harmed others shall be offered therapy counseling or other interventions designed to address and correct the underlining reasons for their conduct. Youth consequences shall commensurate with the nature and circumstances of the sexual abuse or harassment committed, the youth's disciplinary history, and consequences imposed for comparable offenses committed by other youth with similar history. The facility takes into consideration whether a youth's mental disabilities or mental illness contributed to the behavior when determining what disciplinary sanctions, if any, will be imposed. The Superintendent/PCM also clarified that the facility does not make any determination regarding whether a particular activity constitutes sexual abuse. This determination is made by a trained investigator, court system, and/or Law Enforcement.
**Provision (b):**
Any disciplinary sanctions shall be commensurate with the nature and circumstances of the abuse committed, the resident’s disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories. In the event a disciplinary sanction results in the isolation of a resident, agencies shall not deny the resident daily large-muscle exercise or access to any legally required educational programming or special education services. Residents in isolation shall receive daily visits from a medical or mental health care clinician. Residents shall also have access to other programs and work opportunities to the extent possible.

GCJDC Policy provides that disciplinary sanctions are commensurate with the nature and circumstances of the abuse committed, the resident’s disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories. The PCM stated that in the extreme event a disciplinary sanction results in the isolation of a resident, GCJDC shall not deny the resident daily large-muscle exercise or access to any legally required educational programming or special education services. Policy further provides for daily visits by mental health and medical personnel. Residents shall also have access to other programs and work opportunities to the extent possible and receive daily visits from medical and mental health staff, in accordance with Policy.

**Provision (c):**
The disciplinary process shall consider whether a resident's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.

The GCJDC Policy provides that the disciplinary process considers whether a resident’s mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed. This was confirmed by the interview with the Superintendent.

Provision (a):
The facility shall conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded.

GCJDC PREA Policy and Procedures Investigations requires the facility to conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been deemed to be unfounded. The Superintendent is familiar with the Policy requirements. The Superintendent/PCM stated that a report of the findings would be developed to include recommendations for improvement. The report shall be submitted to the Court Services Administrator. The Superintendent/PCM further stated that they may implement the recommendations for improvement or shall document the reasons for not doing so. In that there were no substantiated or unsubstantiated findings that required a review, there were none completed in the previous 12 months.

Provision (b):
Such review shall ordinarily occur within 30 days of the conclusion of the investigation.

There is a Critical Incident Review Form that would be completed within 30 days of the outcome of an Administrative or Criminal Investigation. The Policy requires that the reviews occur within 30 days of the conclusion of the investigation. Provision (c):
The review team shall include upper-level management officials, with input from line supervisors, investigators, and medical or mental health practitioners.

The Superintendent stated that they would identify the incident review team members as administrators with input from line supervisors, medical staff, and Counselors. A review of the PREA Data document demonstrates that it includes data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the U.S. Department of Justice. The agency utilizes a survey for collecting data by the State of Missouri regarding sexual contact prevention.

Provision (b):
The agency shall aggregate the incident-based sexual abuse data at least annually.

This procedure was verified by the Detention Liaison to the Statewide Detention PREA Coordinator. GCJDC Procedures dictates that any incident report that alleges staff sexual misconduct, juvenile sexual misconduct or youth sexual abuse in Court Services facilities shall be collected by the Superintendent, who is also the Agency PREA Coordinator. The Superintendent shall be responsible for compiling records and annually reporting statistical data to the State of Missouri who then compiles all statewide data and submits to Federal Bureau of Justice as required by the Department of Justice. A standardized instrument and specific guidelines and definitions are used to assist in identifying the data.

Provision (d):
The agency shall maintain, review, and collect data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews.

The facility maintains and collects various types of identified data and related documents regarding PREA. The Policy and review of the annual report and data gathering instrument and other documents confirm the facility collects incident-based, uniform data regarding allegations of sexual abuse and sexual harassment. A standardized instrument and specific guidelines and definitions are used to assist in identifying the data.

Provision (e):
The agency also shall obtain incident-based and aggregated data from every private facility with which it contracts for the confinement of its residents.

GCJDC does not contract with outside facilities for confinement of its residents.

Provision (f):
Upon request, the agency shall provide all such data from the previous calendar year to the Department of Justice no later than June 30.

The Policy states that upon request, GCJDC shall provide all such data from the previous calendar year to the Department of Justice no later than June 30. A request was not made for the previous calendar year.
