

GREENE COUNTY, MISSOURI

BLIND PENSIONS FROM RECORD BOOKS 1, 2, AND 3

1923 - 1933

People were eligible to apply to have their names put on the "Blind Pension Roll" by applying to the Probate Court. The names of these applicants can also be found in the general index of the Greene County Circuit Court. Greene County Archives & Records has 3 "Application for Blind Pension" Record Books. The first entry was May 7th, 1921. The final entry was September 9, 1933.

This index includes name, book and page of the entry in the "Blind Pension" record book, birth date and place of birth. In a few instances, causes of blindness are footnoted. Names are often repeated as people would reapply for their pensions. Spellings of names, towns and counties are printed as they appear in the record unless obviously incorrect.

This index does not include the name of the witness to the applicant's mark, address of the applicant, "How long have you lived in Missouri?", places of previous residence, "business or profession," income information, causes of blindness, duration of blindness, medical description of blindness and sometimes other comments.

This index was transcribed by **John Leight** and proofed by **John Stass**. The printed copy was proofed by **Robert Ringer**.
