

Emergency Operations Center Partner Agencies
01/06/18 – 1:30 p.m.

Enhanced Weather Hazards Expected:
Winter Weather Advisory is in effect for Greene County from 6am until 12pm Sunday

Ice Accumulation Elevated
Snow & Sleet Risk Limited

Discussion:
A light wintery mix of precipitation will develop across the area Sunday morning into Sunday afternoon. Minor accumulations of freezing rain, sleet, and snow are likely in areas along and east of U.S. 65. Improving conditions will occur Sunday afternoon.

There is still some uncertainty on how fast the freezing line will move from west to east during the day. Changes in the forecast are possible in the next 24 hours.

Travel Issues:
Impacts: Ground temperatures are very cold and minor accumulations of freezing rain, sleet, and snow will lead to slick roadways.

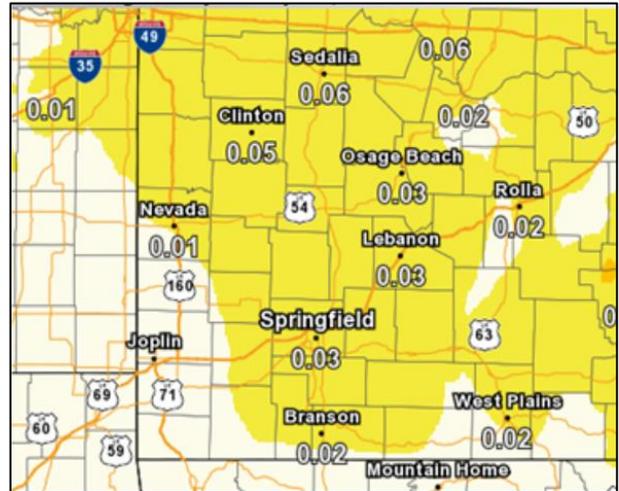

Preparedness Considerations: Consider a winter storm kit for your car. Winterize your vehicle. Pay close attention to upcoming weather information. Watch for social media posts from OEM and our affiliated partners.

Emergency Management Issues:
All partner agencies are prepared to address any issues involving the incoming winter weather:

- OEM will continue to monitor this developing weather situation. Partners should continue to monitor as well.
- Springfield-Greene County EOC is currently at Level 4 Activation (Routine).

Total Ice Accumulation Expected Sunday

Timing of Onset Sunday Morning
