# ALERT SEVERE WEATHER

stay aware, be prepared...

## SEVERE WEATHER HAZARD REPORT

### Springfield-Greene County Office of Emergency Management

### Emergency Operations Center Partner Agencies

6/11/2018–1530

#### Watches/Warnings:

No watches or warnings at this time.

#### Hazards:

Hail	Limited
Wind Gusts	Elevated
Severe Thunderstorms	Elevated
Lightning	Limited

#### Discussion:

Scattered thunderstorms are possible this afternoon into the early evening with a limited chance of large hail or damaging wind gusts. Additional storms will be possible late this evening and overnight as a weakening complex of storms moves southeast the region.

#### Long Term:

Thunderstorms will spread south into the area on Tuesday. A few strong to severe storms will be possible with the highest possibility along and west of Interstate 49. Additional afternoon and early evening scattered storms will then be possible throughout the rest of the week.

#### Citizen Action Statement:

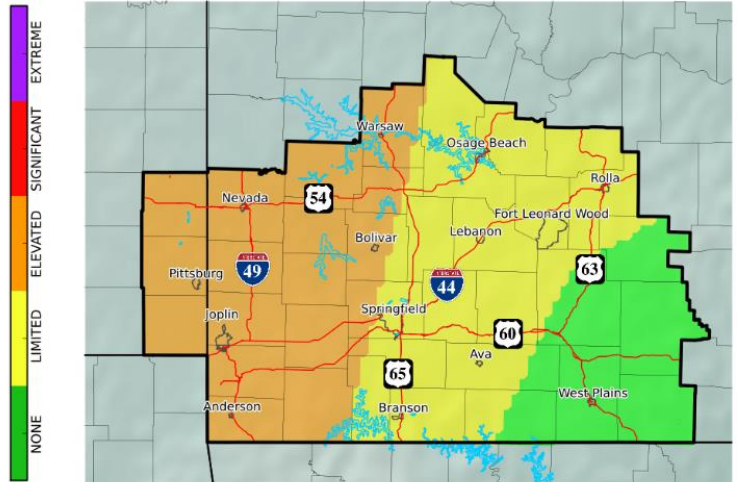

Citizens should consider the following guidance:

- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *“Turn around...don't drown!”*
- Have a severe weather shelter plan! Don't wait until severe weather is imminent to figure out where to shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *“When thunder roars...go indoors!”*

#### Emergency Management Issues:

- All interested parties should continue to monitor the situation for continuing forecast changes
- The OEM will be monitoring "WxNet" (B-15) on Greene County 800 TRS
