ALERT SEVERE WEATHER

stay aware, be prepared...

SEVERE WEATHER HAZARD REPORT

Springfield-Greene County Office of Emergency Management

Emergency Operations Center Partner Agencies

11/30/2018 – 15:00

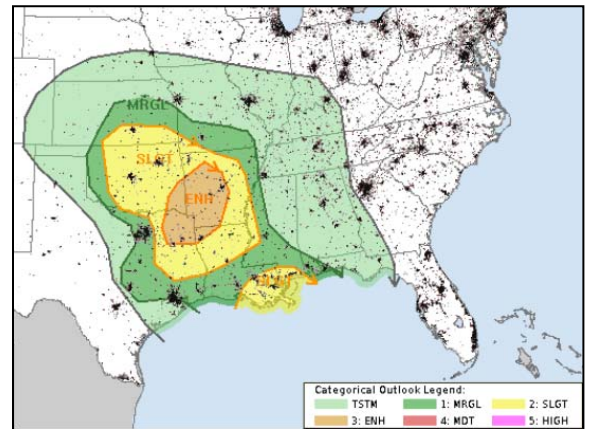

Watches/Warnings:

No watches or warnings at this time.

Hazards:

Severe Thunderstorms	Limited
Lightning	Limited
Wind Gusts	Limited
Hail	Limited

Storm Prediction

Discussion:

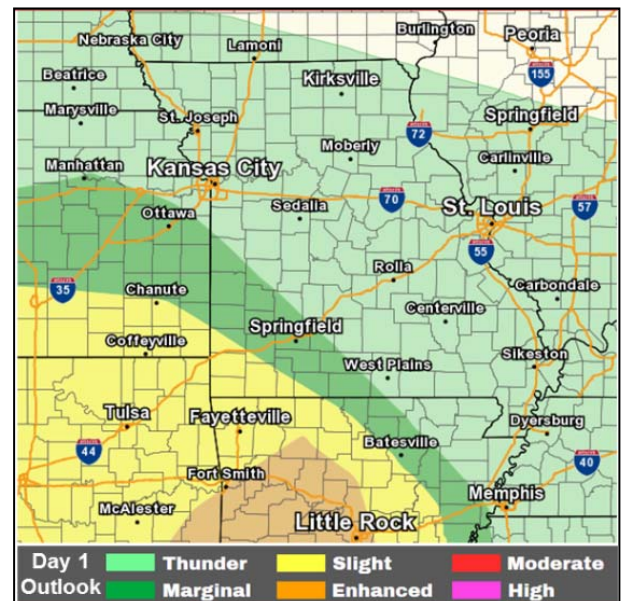

An intense storm system will approach the Ozarks this evening bringing the potential for strong to severe thunderstorms to the area. Primary threats will be damaging winds in excess of 60 MPH and large hail to the size of quarters. An isolated tornado cannot be ruled out. The main severe weather chances will be this evening and overnight, along and south of Pittsburg, Kansas to West Plains line.

Citizen Action Statement:

Citizens should consider the following guidance:

- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *"Turn around...don't drown!"*
- Have a severe weather shelter plan! Don't wait until severe weather is imminent to figure out where to shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *"When thunder roars...go indoors!"*

Severe Weather Outlook

Emergency Management Issues:

- All interested parties should continue to monitor the situation for continuing forecast changes
- The OEM will be monitoring "WxNet" (B-15) on Greene County 800 TRS
