

Emergency Operations Center Partner Agencies
02/09/2019 15:00

Weather Hazards Expected:

A *Winter Weather Advisory* is in effect from February 10, 12:00 AM until February 10, 12:00 PM

	Feb 09	Feb 10
Ice Accumulation	<i>Elevated</i>	<i>Elevated</i>
Snow/Sleet Risk	<i>Limited</i>	<i>None</i>
Excessive Cold	<i>Limited</i>	<i>None</i>

Discussion:

A snow/sleet mix will push in from the southwest late tonight. As temperatures warm up we will see a transition into light freezing rain. There might be light snow/sleet amounts from a dusting up to an inch.

Travel Issues:

Impacts: A minor glaze of ice will be likely on exposed surfaces. Due to the temperature untreated roads may become slick in spots.

Preparedness Considerations: Consider a winter storm kit for your car. Winterize your vehicle. Pay close attention to upcoming weather information. Watch for social media posts from OEM and affiliated partners.

Emergency Management Issues:

- Springfield-Greene County EOC is currently at OpCon **Level 4: Monitoring**.
- OEM will continue to monitor this developing weather situation. Partners should continue to monitor as well.
