

**Emergency Operations Center Partner Agencies**  
02/14/2019 – 16:00

**Weather Hazards Expected:**

A *Winter Weather Advisory* is in effect from February 15, 09:00 AM until February 16, 12:00 AM.

| Hazard           | Feb 15          | Feb 16         |
|------------------|-----------------|----------------|
| Snow/Sleet Risk  | <i>Elevated</i> | <i>None</i>    |
| Ice Accumulation | <i>Limited</i>  | <i>Limited</i> |
| Excessive Cold   | <i>Limited</i>  | <i>Limited</i> |

**Discussion:**

Highs on Thursday will be near 30 degrees with wind chills near 15, and the lows will be around 20. Mixtures of snow and sleet will occur between late morning and early evening when precipitation will likely switch to a snow/freezing rain mix during the overnight hours. A glaze of ice could develop on elevated surfaces causing slick conditions.

**Travel Issues:**

**Impacts:** Wind and snow will create hazardous driving conditions. Plan on slippery roads and reduced visibilities. Special attention should be given to Friday's afternoon commute.

**Preparedness Considerations:** Consider a winter storm kit for your car. Winterize your vehicle. Pay close attention to upcoming weather information. Watch for social media posts from OEM and affiliated partners.

**Emergency Management Issues:**

- Springfield-Greene County EOC is currently at OpCon **Level 4: Monitoring**.
- OEM will continue to monitor this developing weather situation. Partners should continue to monitor as well.
