

Emergency Operations Center Partner Agencies
02/15/2019 – 08:30

Weather Hazards Expected:

A *Winter Weather Advisory* is in effect from February 15, 09:00 AM until February 16, 12:00 AM.

Hazard	Feb 15	Feb 16
Snow/Sleet Risk	Limited	None
Ice Accumulation	Elevated	Limited

Discussion:

The onset of winter weather has shifted to between 8:00-10:00 am. Changes to the forecast include higher levels of sleet and freezing rain in the wintery mix but overall accumulation totals have not changed. Freezing rain will become more likely throughout the day, peaking around 21:00. Temperatures are expected to reach a high of 29 today so melting will be kept to a minimum.

Travel Issues:

Impacts: The primary impact will be elevated surfaces and roadways during the afternoon/evening commute. Current road temperatures are below freezing. Plan on slippery roads and reduced visibilities.

Preparedness Considerations: Consider a winter storm kit for your car. Winterize your vehicle. Pay close attention to upcoming weather information. Watch for social media posts from OEM and affiliated partners.

Emergency Management Issues:

- Springfield-Greene County EOC is currently at OpCon **Level 4: Monitoring**.
- OEM will continue to monitor this developing weather situation. Partners should continue to monitor as well.
