

Emergency Operations Center Partner Agencies
02/16/2019 – 14:25

Weather Hazards Expected:

A *Winter Weather Advisory* is in effect from February 16, 06:00 until February 17, 06:00.

Hazard	Feb 16	Feb 17
Ice Accumulation	<i>Elevated</i>	<i>Limited</i>
Excessive Cold	<i>Limited</i>	<i>Limited</i>

Discussion:

The highest potential for freezing rain/drizzle will occur between Midnight and 02:00, Feb. 17, but drizzle can continue until 11:00 on Sunday. Highs for today are not expected to be above freezing so additional ice accumulation of a glaze to 0.05 inches can be expected. This will be compounded by the expected presence of patchy fog throughout the night. Snow/sleet accumulations are not expected to occur at this time and all precipitation is expected to end by 11:00 on Sunday.

Travel Issues:

Impacts: The primary impact will be to elevated and untreated surfaces and roadways on Saturday evening and Sunday morning. Expect patches of black ice and fog throughout the night.

Preparedness Considerations: Consider a winter storm kit for your car. Winterize your vehicle. Pay close attention to upcoming weather information. Watch for social media posts from OEM and affiliated partners.

Emergency Management Issues:

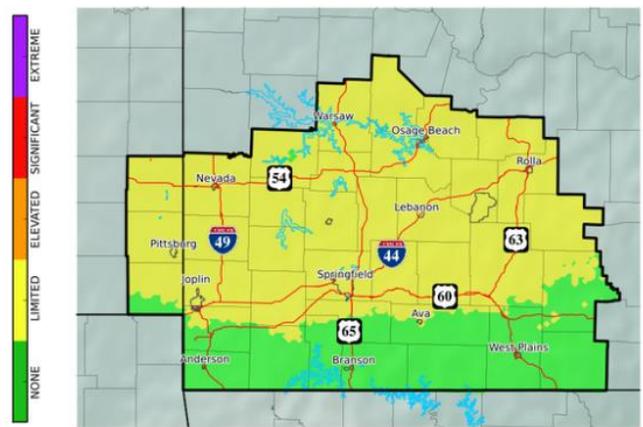

- Springfield-Greene County EOC is currently at OpCon **Level 3: Monitoring**.
- OEM will continue to monitor this developing weather situation. Partners should continue to monitor as well.
