# SEVERE WEATHER ALERT

stay aware, be prepared...

## SEVERE WEATHER HAZARD REPORT

### Springfield-Greene County Office of Emergency Management

### Emergency Operations Center Partner Agencies

05/08/2019 – 11:15

**Watches/Warnings:** No watches or warnings in effect.

Hazards:	5/8
Severe Storms	Limited
Lightning	Elevated
Flooding	Limited
Hail	Limited
Wind Gusts	Limited
Non T-Storm Wind	Limited

### Discussion:

Remnant showers and thunderstorms are occurring over areas west of highway 65 this morning as an old outflow boundary moves through. This activity will continue to spread east and weaken during the morning hours. Localized and generally brief downpours are expected.

The outflow boundary may stabilize the area today, but the atmosphere is expected to gradually destabilize again by mid to late afternoon into the evening hours with some potential for storm redevelopment. Some of the renewed storms will have a limited potential to become severe.

Pockets of heavy rainfall will continue to produce a flooding risk.

### Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area!
  - "When thunder roars...go indoors!"
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. "Turn around...don't drown!"

### Emergency Management Issues:

- Springfield-Greene County EOC is currently at **OpCon Level 3: Monitoring**
- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- All interested parties should continue to monitor the situation for forecast changes.
