# SEVERE WEATHER ALERT

stay aware, be prepared...

## SEVERE WEATHER HAZARD REPORT

### Springfield-Greene County Office of Emergency Management

**Emergency Operations Center Partner Agencies**  
06/01/2019 – 0955

**Watches/Warnings:** *No Watches or Warnings in effect.*

Hazards:	6/1
Severe Storms	Elevated
Lightning	Limited
Hail	Elevated
Wind Gusts	Elevated

### Discussion:

Scattered storms are expected today and tonight with the greatest coverage from this afternoon into this evening. Some storms may become severe this afternoon and this evening, especially north of I-44 and east of US 65. Frequent cloud to ground lighting, heavy rainfall with localized flash flooding, hail up to 2 inches, and damaging wind gusts are possible. **Storm Mode:** Discrete supercells evolving into clusters as storms push southeast through the area during the evening.

**Confidence Level: GOOD** for severe weather. Timing is in question.

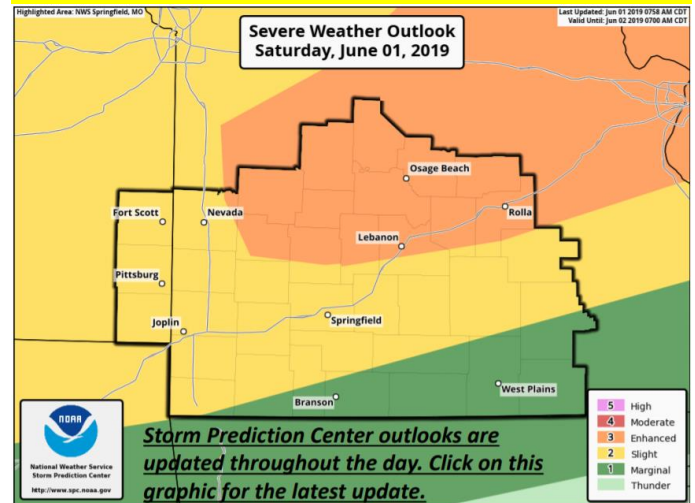

### Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- **Hail:** Be prepared to move vehicles, people, and animals for protection.
- **Wind:** Be prepared to secure property to prevent wind damage. Prepare to move to an interior shelter.
- Take shelter when lightning is in the area! *"When thunder roars...go indoors!"*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *"Turn around...don't drown!"*

### Emergency Management Issues:

- Springfield-Greene County EOC is currently at **OpCon Level 3: Monitoring**
- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- All interested parties should continue to monitor the situation for forecast changes.
- Follow OEM: Twitter @gcoem or Facebook/SpringfieldGreeneOEM
