FLOODING HAZARD REPORT

Springfield-Greene County
Office of Emergency Management

Emergency Operations Center Partner Agencies
06/17/2019 – 1000

Watches/Warnings: **Flash Flood Watch** in effect until
June 18, 1:00 AM.

Hazards:

Lightning
Flooding

6/17

Elevated
Elevated

Discussion:

A slow moving upper level system will interact with very high moisture to produce slow moving showers and thunderstorms today and this evening across the area. High precipitation rates with these slow moving storms will likely cause some flash flooding to occur. Localized 1-3 inch rainfall amounts and flooding of low water crossings and state/county roads are possible.

Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *“When thunder roars...go indoors!”*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *“Turn around...don’t drown!”*

Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at **OpCon Level 3: Monitoring**
- All interested parties should continue to monitor the situation for forecast changes.
