SEVERE WEATHER ALERT

stay aware, be prepared...

Springfield-Greene County Office of Emergency Management

Emergency Operations Center Partner Agencies 06/21/2019 – 1120

Watches/Warnings: No Watches or Warnings

<u>Hazards:</u>	<u>6/20</u>
Severe Storms	Limited
Lightning	Limited
Flooding	Limited
Wind Gusts	Elevated
Hail	Limited
Non T-Storm Wind	Limited
Excessive Heat	Limited

Discussion:

A strengthening complex of thunderstorms (QLCS) is tracking east and southeast across Missouri this morning, and may move into the area early this afternoon. Damaging straightline winds in excess of 60 mph, hail to 1 inch, frequent cloud to ground lightning, and locally heavy rainfall with flash flooding are possible with these storms. **Estimated Time of Arrival:** 12:30 PM to 2:00 PM. Heat index values today will be in the upper 90s to 105 degrees.

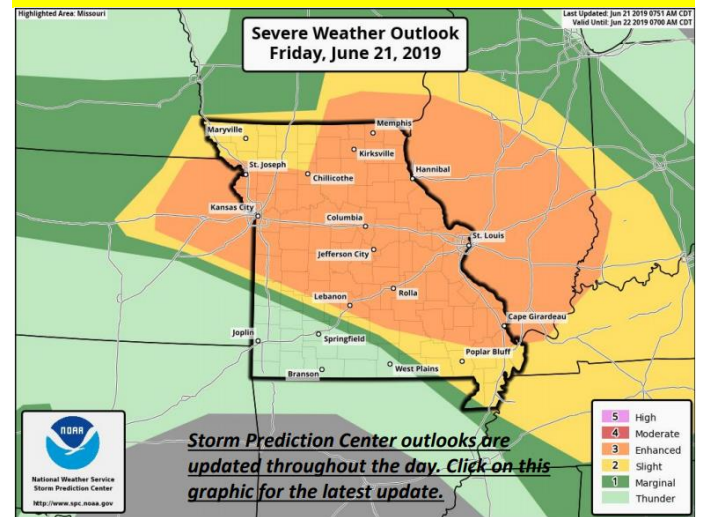

Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *"When thunder roars...go indoors!"*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *"Turn around...don't drown!"*

Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at **OpCon Level 3: Monitoring**
- All interested parties should continue to monitor the situation for forecast changes.
- Follow OEM: Twitter @gcoem or Facebook/SpringfieldGreeneOEM

Severe Storm Risk - Friday

Heat Index - Friday
