Watches/Warnings: *No Watches or Warnings*

Hazards:

Severe Storms
Lightning
Wind Gusts
Hail

6/26

Limited
Limited
Limited
Limited

Discussion:

Widely scattered thunderstorms are possible into early evening over far southeast Kansas and south of Hwy 60 in Missouri. Some of these storms may produce marginally severe winds and hail. Heavy downpours may also lead to a limited threat of flooding where storms move over the same area.

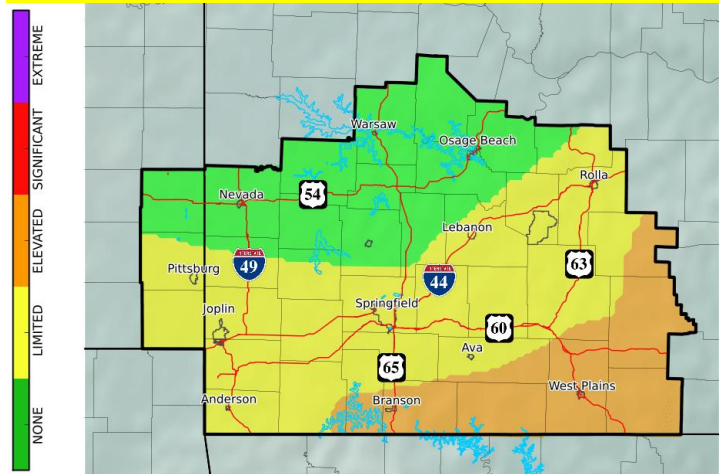

Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *“When thunder roars...go indoors!”*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *“Turn around...don’t drown!”*

Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at **OpCon Level 3: Monitoring**
- All interested parties should continue to monitor the situation for forecast changes.
