Discussion:

A couple of strong to severe storms with 1-inch hail and damaging winds to 60 mph are possible this evening. These storms will likely diminish after sunset. More storms may develop and move into parts of the area late tonight into tomorrow morning with the possibility of 1-inch hail, damaging winds to 60 mph, and localized flash flooding. **Expected Arrival Time:** Midnight to sunrise. These storms may persist into tomorrow afternoon.

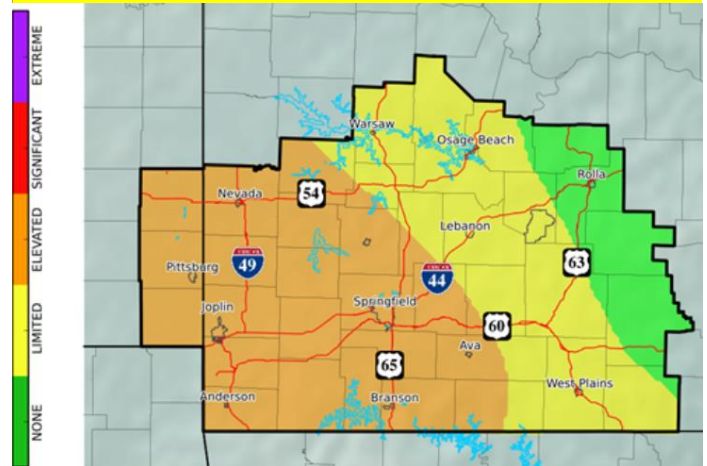

Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *“When thunder roars...go indoors!”*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *“Turn around...don’t drown!”*

Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at **OpCon Level 3: Monitoring**
- All interested parties should continue to monitor the situation for forecast changes.
