# SEVERE WEATHER ALERT

stay aware, be prepared...

## SEVERE WEATHER HAZARD REPORT

Springfield-Greene County  
Office of Emergency Management

**Emergency Operations Center Partner Agencies**  
08/29/2019 – 1500

**Watches/Warnings:** *No Watches or Warnings*

Hazards	8/29
Severe Storms	Limited
Lightning	Limited
Wind Gusts	Limited

### Discussion:

Thunderstorms are expected to develop north of the area this evening and push into the area overnight. The stronger storms will be capable of producing hail to the size of quarters and wind gusts up to 60 mph, mainly northwest of an interstate 44 corridor. In addition to the hail and wind potential with the thunderstorms, heavy rain will be likely and may cause some localized flooding to develop.

### Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *“When thunder roars...go indoors!”*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *“Turn around...don’t drown!”*

### Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at **OpCon Level 3: Monitoring.**
- All interested parties should continue to monitor the situation for forecast changes.
- Follow OEM: Twitter @gcoem or Facebook/SpringfieldGreeneOEM
