stay aware, be prepared...

## SEVERE WEATHER HAZARD REPORT

### Springfield-Greene County Office of Emergency Management

### Emergency Operations Center Partner Agencies 10/20/2019 – 1405

#### Watches/Warnings:

No watches or warnings at this time.

<b>Hazards</b>	<b>10/20</b>
Tornado	Limited
Wind Gusts	Limited
Severe Storms	Limited
Lightning	Significant
Hail	Limited

#### Discussion:

Storms are expected to develop in front of a cold front this evening. Severe storms and isolated tornadoes are possible in Greene County between 9:00pm Sunday and 6:00am Monday. However, the primary threat is from straight line wind gusts that can reach 70 mph. The strongest storms can also produce hail up to the size of quarters (1") and frequent lightning.

#### Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *"When thunder roars...go indoors!"*
- Citizens with outdoor recreational plans along rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *"Turn around...don't drown!"*

#### Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at **OpCon Level 3: Monitoring**
- Follow OEM: Twitter @gcoem or Facebook/SpringfieldGreeneOEM
