Non-Thunderstorm Wind Gusts	SIGNIFICANT
Thunderstorm Wind	LIMITED
Tornado	LIMITED
Hail	LIMITED
Lightning	LIMITED
Severe Thunderstorms	LIMITED

Discussion:

Strong to severe storms are expected to impact Greene County from late this afternoon into the early morning hours as a strong cold front moves through the Ozarks. Main threats are damaging winds gusts from 45-55mph, nickle-sized hail, and possibly a brief tornado given the limited instability.

Flooding is possible between Thursday morning and Saturday night as periods of moderate to heavy rainfall may occur.

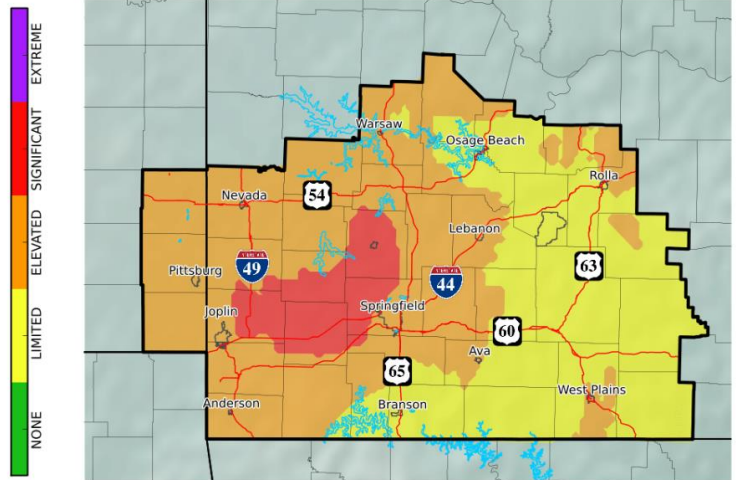

Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *"When thunder roars...go indoors!"*
- Citizens with outdoor recreational plans along rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *"Turn around...don't drown!"*

Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at **OpCon Level 3: Monitoring**
- Follow OEM: Twitter @gcoem or Facebook/SpringfieldGreeneOEM
