SEVERE WEATHER ALERT

stay aware, be prepared...

SEVERE WEATHER HAZARD REPORT

Springfield-Greene County Office of Emergency Management

Emergency Operations Center Partner Agencies
12/28/2019 – 1130

Watches/Warnings: *No Watches or Warnings*

Hazards	12/28
Tornado	Limited
Severe Storms	Limited
Lightning	Limited
Wind Gusts	Limited
Non T-Storm Wind	Limited

Discussion:

A line of storms will move west to east across the area from this evening into the early overnight hours. Some some strong to severe storms are possible with damaging wind gusts to 60 mph. Given strong wind shear, an isolated brief weak tornado is also possible. Non-thunderstorm gusty southerly winds to 35 mph are also possible this evening. **Spotter activation may be needed later today.**

Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *“When thunder roars...go indoors!”*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *“Turn around...don’t drown!”*

Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at **OpCon Level 3: Monitoring**
- All interested parties should continue to monitor the situation for forecast changes.
- Follow OEM: Twitter @gcoem or Facebook/SpringfieldGreeneOEM
