## SEVERE WEATHER HAZARD REPORT

### Springfield-Greene County Office of Emergency Management

### Emergency Operations Center Partner Agencies

03/09/2020 – 1520

Watches/Warnings: *None at this time*

#### Hazards

Tornado	Limited
Thunderstorm Wind	Limited
Severe Thunderstorms	Limited
Lightning	Limited
Hail	Limited
Fire Weather	Limited

#### Discussion:

A cold front will move east to west across the area late this afternoon into this evening bringing the potential for scattered to isolated storms. Hail up to a quarter in size, damaging winds gusts and a brief, weak tornado are all possible. The timing of these storms is forecasted to arrive between 1700-2100 hours tonight.

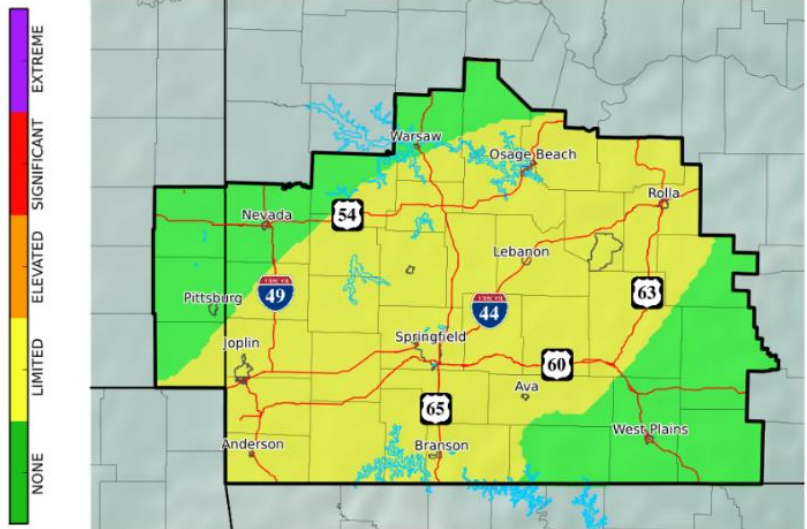

#### Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *"When thunder roars...go indoors!"*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *"Turn around...don't drown!"*

#### Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at **OpCon Level 3: Monitoring**
- All interested parties should continue to monitor the situation for forecast changes.
