stay aware, be prepared...

SEVERE WEATHER HAZARD REPORT

Springfield-Greene County Office of Emergency Management

Emergency Operations Center Partner Agencies

07/11/2020 – 0900

Watches/Warnings: None at this time

Hazards

Tornado	Limited
Lightning	Limited
Thunderstorm Wind	Limited
Hail	Limited
Excessive Rainfall	Limited
Excessive Heat	Limited

Discussion:

Scattered thunderstorms are expected to develop this afternoon and this evening across much of the region. Several of these storms could be severe, with tennis ball-sized hail, 70mph wind gusts and even a tornado or two. Any training thunderstorm could provide a risk for flash flooding.

Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *“When thunder roars...go indoors!”*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *“Turn around...don’t drown!”*

Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at **OpCon Level 2: Activation (Virtual/Physical)**
- All interested parties should continue to monitor the situation for forecast changes.
- Follow OEM: Twitter @gcoem or Facebook/SpringfieldGreeneOEM
