## SEVERE WEATHER HAZARD REPORT

### Springfield-Greene County Office of Emergency Management

### Emergency Operations Center Partner Agencies

07/11/2020 – 1400\*

*\*this is an update to previous report sent earlier today*

**Watches/Warnings:** None at this time

### Hazards

|                      |          |
|----------------------|----------|
| Severe Thunderstorms | Elevated |
| Hail                 | Elevated |
| Thunderstorm Wind    | Elevated |
| Tornado              | Limited  |
| Excessive Rainfall   | Limited  |
| Lightning            | Limited  |
| Excessive Heat       | Limited  |

### Discussion:

Isolated strong to severe storms will be possible this afternoon as a warm and unstable air mass remains over the region. Late this afternoon into the evening, a complex of severe storms is expected to move from north to south across the region, bringing a threat for isolated tornadoes, wind gusts over 70 mph and tennis ball-size hail. Localized flooding is also possible with any training storms.

### Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *"When thunder roars...go indoors!"*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *"Turn around...don't drown!"*

### Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at **OpCon Level 2: Activation (Virtual/Physical)**
- All interested parties should continue to monitor the situation for forecast changes.
- Follow OEM: Twitter @gcoem or Facebook/SpringfieldGreeneOEM
