SEVERE WEATHER HAZARD REPORT

SEVERE WEATHER ALERT

stay aware, be prepared...

Springfield-Greene County Office of Emergency Management

Emergency Operations Center Partner Agencies

11/14/2020 – 1500 hours

Watches/Warnings: No current watches/warnings

Hazards

Tornado	Limited
Hail	Limited
Thunderstorm Wind	Limited
Severe Thunderstorm	Limited
Lightning	Limited
Non-Thunderstorm Wind	Limited

Discussion:

Some scattered strong to severe storms will be possible beginning after dark and continuing through the late evening. Damaging wind gusts in excess of 60 mph will be the main severe weather risk. A few brief tornadoes will also be possible, along with hail to the size of quarters. Sustained winds of 20 to 30 mph and gusts of 30 to 45 mph.

Spotter activation may be needed later today or tonight for much of the area as all modes of severe storms will be possible.

Citizen Action Statement:

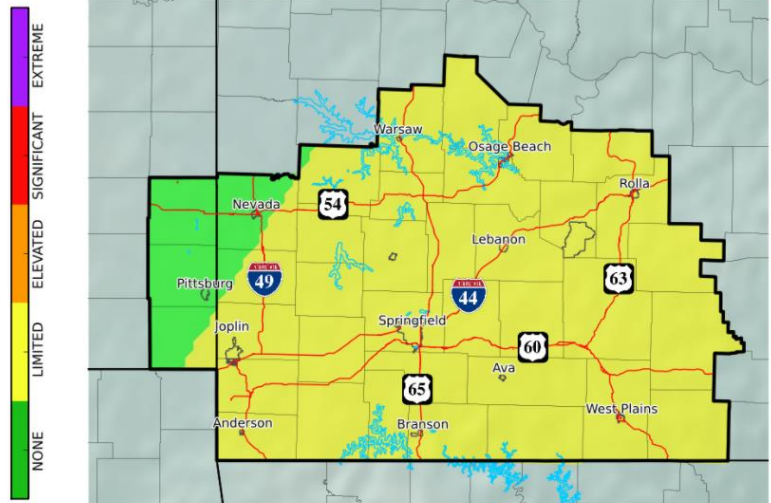

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *"When thunder roars...go indoors!"*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *"Turn around...don't drown!"*

Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at:
OpCon Level 2: Partial Activation (Virtual/Physical)
- All interested parties should continue to monitor the situation for forecast changes.
- Follow OEM: Twitter @gcoem or Facebook/SpringfieldGreeneOEM
