Watches & Warnings

None

Hazards	02/21	02/22
Tornado	LIMITED	LIMITED
Thunderstorm wind	LIMITED	LIMITED
Severe Thunderstorms	LIMITED	LIMITED
Hail	LIMITED	LIMITED
Excessive Rain	ELEVATED	NONE

Discussion:

Strong to severe storms with heavy rain will occur tonight into Tuesday morning generally along and south of I-44. Hail to the size of quarters and damaging wind gusts in excess of 60 mph will be the main severe risk with some risk for spin up tornadoes. Flooding risk will be around midnight tonight into Tuesday morning. Flood prone areas including low water crossings will have a higher potential for flooding.

Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *“When thunder roars...go indoors!”*
- Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *“Turn around...don’t drown!”*

Emergency Management Issues:

- OEM is monitoring "WxNet" (B-15) on Greene County 800 TRS
- Springfield-Greene County EOC is currently at:

OpCon Level 4: Monitoring

- All interested parties should continue to monitor the situation for forecast changes.
- Follow OEM: Twitter @gcoem or Facebook/SpringfieldGreeneOEM
