stay aware, be prepared...

SEVERE WEATHER HAZARD REPORT

Springfield-Greene County
Office of Emergency Management

Emergency Operations Center Partner Agencies

11/04/2022 – 1015 hours

Watches/Warnings: none currently

| Hazard | 11/4 |
|-----------------------|---------|
| Hail | LIMITED |
| Tornado | LIMITED |
| Lightning | LIMITED |
| Excessive Rainfall | LIMITED |
| Thunderstorm Wind | LIMITED |
| Non-Thunderstorm Wind | LIMITED |

Discussion:

Widespread showers and thunderstorms are expected late this afternoon through this evening. There is a low end chance for a few isolated strong to severe thunderstorms. Damaging wind gusts up to 60 mph and hail up to quarter size are the primary hazards. A spin-up tornado cannot be ruled out. Flooding threat will remain limited by the progressive nature of the system and recent dry conditions. Additionally, strong gusty winds of 30-45 mph will accompany the system today and tonight.

Citizen Action Statement:

- Have a severe weather shelter plan! Review emergency kit and identify closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area! *"When thunder roars...go indoors!"* Citizens with outdoor recreational plans along area rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels. *"Turn around...don't drown!"*

Emergency Management Issues:

- Springfield-Greene County EOC is currently at:
 - OpCon **Level 4: Monitoring**
- OEM will continue to monitor this developing weather situation.
