Watches / Warnings / Advisories:

Winter Storm Warning Through Wednesday Morning

*This is an evolving weather event.
Please continue to monitor weather conditions as they develop.*

| HAZARD | Jan-24 | Jan-25 |
|------------|-------------|---------|
| Cold | NONE | LIMITED |
| Ice | NONE | NONE |
| Snow/Sleet | SIGNIFICANT | LIMITED |

DISCUSSION

A winter storm will bring accumulating snowfall to the region late this afternoon into Wednesday morning. Impacts to travel are likely to begin this evening. Areas along and especially southeast of interstate 44 have the greatest potential for heavy snowfall and major impacts. Snowfall amounts of 5 to 10 inches are likely with localized amounts up to 12 inches south of the I-44 corridor. Updated graphics show northward expansion to Winter Storm Warning.

North wind gusts up to 30 mph are likely overnight across south central Missouri. This could cause some drifting of snow and reduced visibilities in these areas.

CITIZEN ACTION STATEMENT

- Consider a winter storm kit for your car & winterize cars.
- Bring pets indoors or to a warm dry place with plenty of food.
- Practice generator safety and only use outside of home.
“Carbon Monoxide kills in minutes”
- Pay close attention to upcoming weather information.
- Watch for social media posts from OEM and partners.
