SERVICE DELIVERY

Meet with a Navigator

Survivors meet with an advocate (Navigator) to assess their most immediate needs and identify the services they would like to receive

Risk Assessment and Safety Planning

Navigators help survivors assess potential dangers and develop a custom short-term safety plan to help keep them safe.

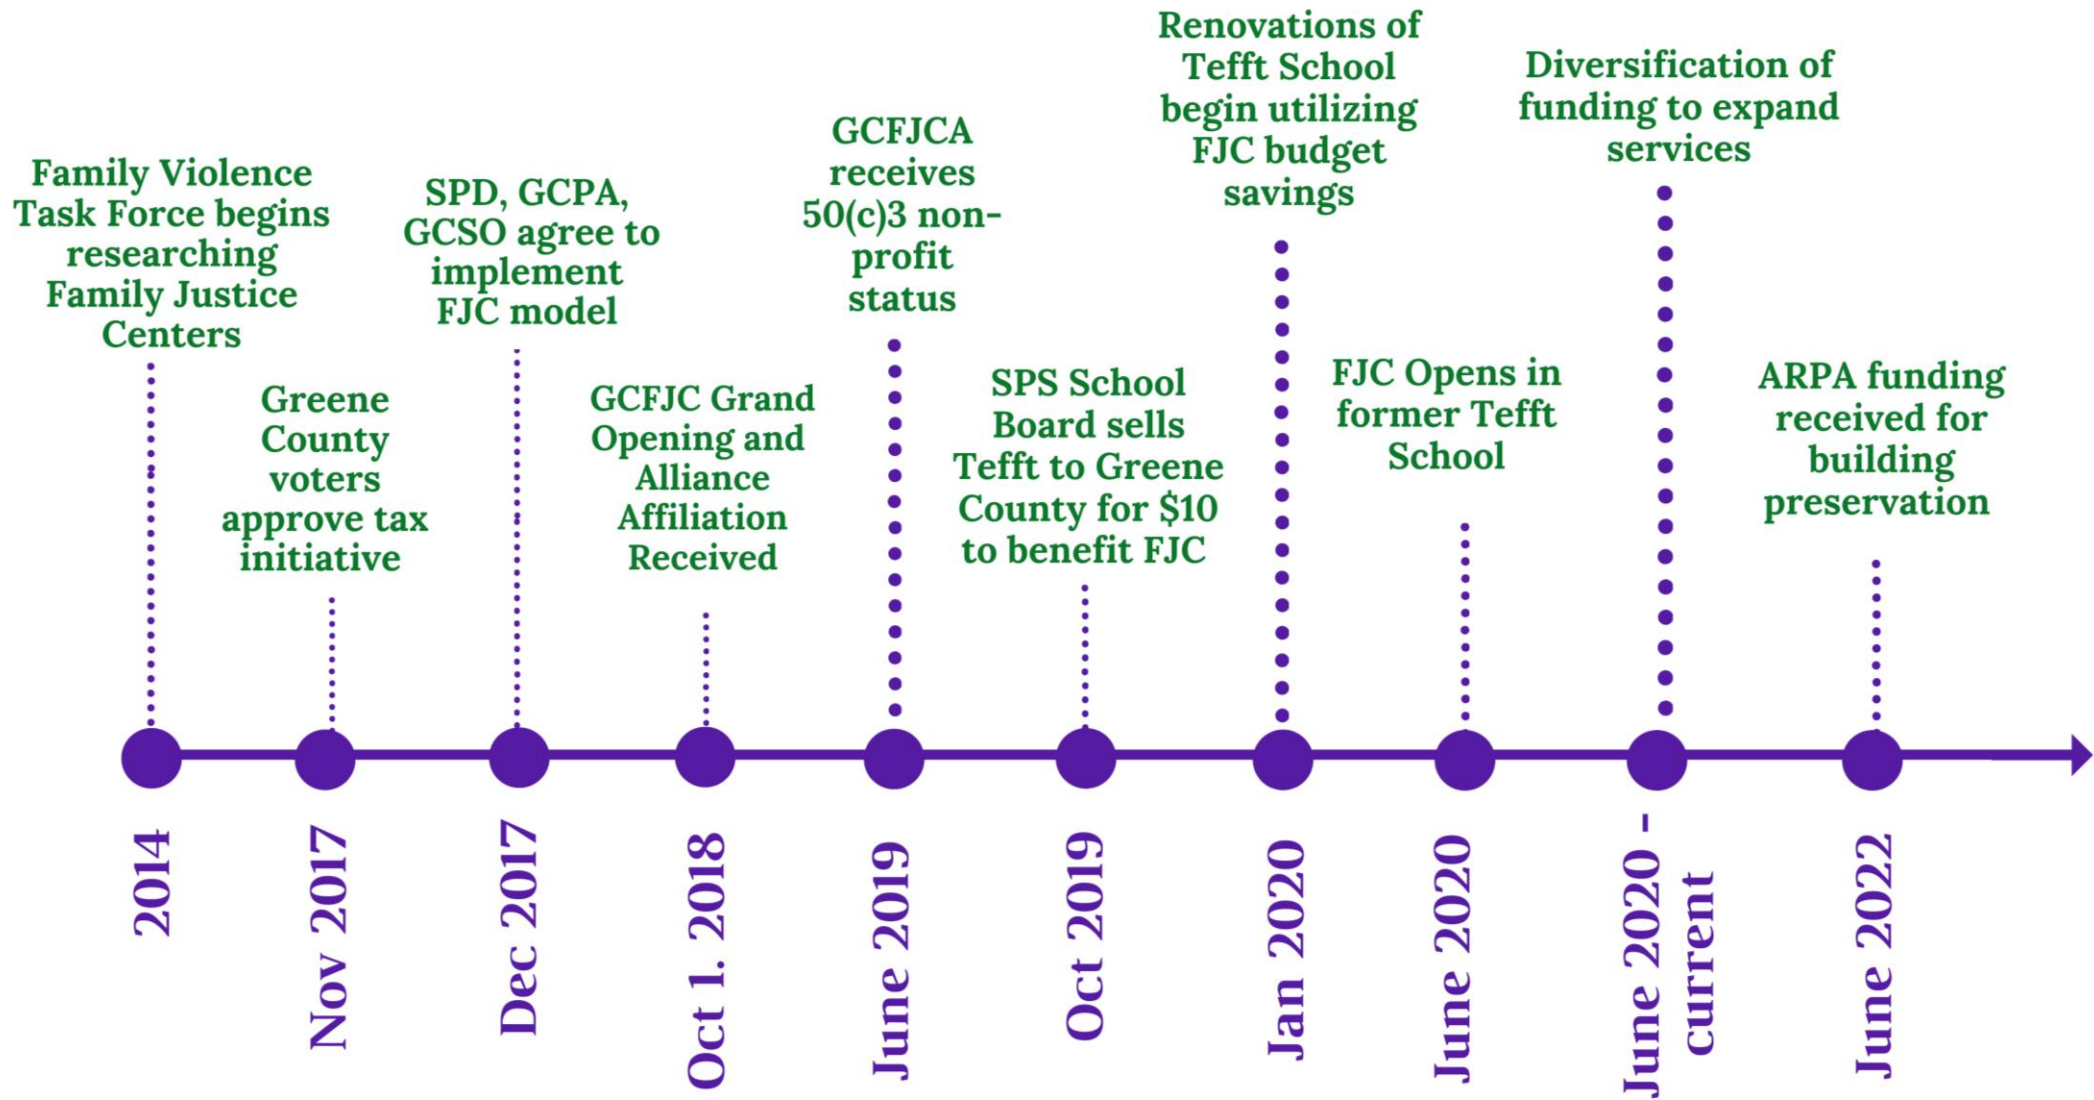

Service Plan

The Navigator brings in on-site partners the survivor chooses to meet with. The team works together to meet each individual need of the survivor.

Long-Term Plan

After meeting the clients initial needs, our service providers schedule on-going appointments and connect survivors to any additional off-site services they may need.
