"The Midweek Matinees were a wholesome opportunity to be a part of with all the staff creating a positive, fun atmosphere which was shadowed by the individuals attending.

-MSU Gerontology Student Volunteer

"I had a lot of prior assumptions on what aging 'looks like', but I am so much more open-minded now...This wasn't just about the theater, movie, or event, this was mainly about having something routine with people they cared about."

-MSU Gerontology Student Volunteer

"Every two weeks we have a bus fully loaded for residents to go and watch the movie. However, it's not just the movie The Gillioz gives us but time on the way to and from the theatre where we can laugh, bond, and reminisce. I learn so much from listening and asking questions and the same for them. We live in an age of technology where communication can feel distant but The Gillioz lets us go back in time when just spending a couple hours together makes everything in the world right."

-Will Bauer, Turner's Rock Activities Director
