| HAZARD | Apr-20 | Apr-21 |
|---------------------|----------|--------|
| Tornado | Enhanced | None |
| Severe Thunderstorm | Enhanced | None |
| Hail | Slight | None |
| Excessive Rainfall | Elevated | None |
| Lightning | Elevated | None |
| Wind | Elevated | None |

DISCUSSION

Severe thunderstorms are possible this morning, mainly west of Highway 65. Winds up to 60-70 mph and possibly a brief tornado or two is possible. Heavy rainfall and flooding will also be a concern in these areas. Additional severe thunderstorms are expected this afternoon and evening. The western extent is still somewhat in question depending on how quickly morning rainfall exists in the area. Threats are winds up to 70 mph, golf ball sized hail, and tornadoes. A strong tornado or two are possible. Non-thunderstorm wind gusts up to 45 mph are expected today.

CITIZEN ACTION STATEMENT

- Have a severe weather shelter plan. Review your emergency kit and identify the closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area.
- "When thunder roars . . . go indoors!"**
- Citizens with outdoor recreational plans along rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels.

"Turn around . . . don't drown!"
