Watches / Warnings / Advisories:

No watches or warnings currently

HAZARD	Oct 18
Lightning	ELEVATED
Excessive Rainfall	ELEVATED
Thunderstorm Wind	SLIGHT
Severe Thunderstorm	SLIGHT

DISCUSSION

Showers and thunderstorms will move through the area early Saturday morning before sunrise. Severe storms are possible especially along and south of I-44 by late morning/early afternoon. All severe hazards are possible with a widespread high wind threat being the most probable threat.

Flooding is a concern with the line of thunderstorms moving through on Saturday with many storms training over the same areas. Areas along and east of Highway 65 have the best chance of seeing the higher rainfall totals. Widespread totals will be around 1-2 inches with localized amounts up to 4 inches.

CITIZEN ACTION STATEMENT

- Have a severe weather shelter plan. Review your emergency kit and identify the closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area.
- **"When thunder roars . . . go indoors!"**
- Citizens with outdoor recreational plans along rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels.

"Turn around . . . don't drown!"

EMERGENCY MANAGEMENT ISSUES

Springfield-Greene County EOC: **OpCon Level 4: Monitoring**

*** OEM will continue to monitor this developing weather situation. ***
