## SEVERE WEATHER

SPRINGFIELD-GREENE COUNTY OFFICE OF EMERGENCY MANAGEMENT

### Emergency Operations Center Partner Agencies

03/06/2026 | 1500 hrs. Hazard Event #: 26-012

### Watches / Warnings / Advisories:

None at this time.

HAZARD	03-06
Severe Thunderstorm	Enhanced
Tornado	Enhanced
Thunderstorm Wind	Slight
Hail	Enhanced
Lightning	Elevated
Excessive Rainfall	Elevated
Grassland Fire Danger Index	Very High

### DISCUSSION

Severe thunderstorms are expected late this afternoon/evening, lasting into early Saturday morning. All hazards possible, including large hail up to two inches, 60-70 mph damaging wind gusts, and tornadoes.

Supercells and bowing clusters are expected first, with a line of thunderstorms to come later. The greatest large hail and tornado risk will be west of Highway 65 with the initial supercells this afternoon/evening.

Damaging winds then become the primary risk with the squall line across the entire area late this evening and through tonight. This line will also have a weaker spin-up tornado risk.

### CITIZEN ACTION STATEMENT

- Have a severe weather shelter plan. Review your emergency kit and identify the closest safe shelter.
- Have a way of receiving severe weather warnings (NOAA Weather Radio, social media, news media, etc.)
- Take shelter when lightning is in the area.
- **“When thunder roars . . . go indoors!”**
- Citizens with outdoor recreational plans along rivers and streams should be alert for the potential for lightning strikes and rapidly rising water levels.

**“Turn around . . . don’t drown!”**
