An Extreme Heat Warning in effect through 8 p.m. Sunday. Daily highs in the middle/upper 90s to low 100s. Maximum heat index values around 100 to 110°. Minimal overnight relief with lows in the middle to upper 70s.

The heat combined with the lack of recent rainfall and drying fuels will result in an elevated grassland fire risk today.

A prolonged heat wave will continue through at least early next week, with daily highs in the middle 90s to low 100s, and maximum heat index values around 100 to 110.
