County Administrator Chris Coulter told the Commission that next week the Medical Examiner proposed budget should be ready. He said it is so far looking more affordable to have the M.E. office under Commission's umbrella. Internally, the budget is projected to be around \$550,000. He noted that there would be no drop in insurance for existing M.E. employees.

Trysta Herzog said she is currently working on legislative Priorities. She also presented a print out of social media analytics.

Budget Officer Jeff Scott said the change in sales tax would be effective April 1. He said about 10 percent would start trickling in in May, and then the county would begin to receive around \$150,000 per month. He shared some concern about spending in the first six months of 2018, since the county would essentially be spending money not yet received. He said he believes the cash position will be strong, but that we will need to be conscientious of spending in the first half of the year.

Meeting adjourned.
