Jess Kerr- I.S Director

UPDATE: The whole county has been transferred over to the server for the last two weeks. HP is coming today (05/16) about leasing computers and the cost. Dell has already quoted prices. Mr. Kerr explains to the Commission that this will not save the County any money, however the advantage is you do have the most up to date technology which would be a great benefit. Explained however due to the fact that we would have to sign a 3 year contract if ever there was a budget cut we wouldn't be able to cut the lease because of the contract and that infrastructure there for would suffer.

Commissioner Harold Bengsch addresses Trysta Herzog that he had received a call from a Mr. Bologna from the News Leader asking about the Telemate service that the Jail is starting to use and had a lot of questions that Commissioner Bengsch wasn't sure how to answer. Brief discussion about the Telemate service ensued.
