To: Angie L. Crews
Subject: FW: Radios
Attachments: Disposal of Surplus Property Instructions and Forms Revised 2020 - RADIOS.xlsx

From: Meggan Hartman
Sent: Monday, November 16, 2020 1:56 PM
To: Laura Merriman <LMerriman@greenecountymo.gov>
Subject: RE: Radios

So here is the e-mail I had forwarded you from Don. I have also attached the original disposal list I made, but ignore the Estimate Value because looking at Don's we will be way off since it would only be a radio. No brackets, antennas, cables, batteries or chargers.

From: Donald Kocian <Don.Kocian@cityutilities.net>
Sent: Thursday, October 1, 2020 2:39 PM
To: Meggan Hartman <mhartman@greenecountymo.gov>
Subject: MCS/MTS-2000 Radios

Meggan,

We have looked into several options for disposing of our surplus MCS- & MTS-2000 radios.

For example, we discussed selling them with Sunny Communications and Command Communications. Both replied the radios would hardly be worth the cost of shipping them.

We also put a lot of 25 radios on a surplus auction site. We sold 15 MTS-2000 portable radios; we included two batteries and an IMPRES charger with each radio. We also sold 10 MTS-2000 mobile radios. We included a microphone, mounting bracket and wiring harness with each (I should have kept the wiring harnesses). The winning bid was only $210 for the 25 radio lot; or about $8.40 each.

The high bidder was a local company (Springfield Underground) that was able to pick up the lots so no shipping costs. Another factor to consider is that the local demand is small so the local market would be quickly saturated so if it is not already. Springfield Underground expressed interest in a handful of additional radios as spares, but only a few.

Bottom line, the winning bid was to low to cover the cost of going through the process and, if more radios hit the market, it will only get worse.

As a result, I sought and received approval to scrap our remaining radios.

If anyone has questions, please point them my way.

Donald Kocian, MSEE, MBA, P.E.

East-West Arterial Roadway

PROJECT HISTORY & FACTS:

- The concept for an East/West Arterial corridor in southern Greene County originated as a recommendation in the 1996 Springfield-Greene County Concept Plan, known as "Vision 20/20". This long range plan identified a future need for a primary roadway corridor in southern Greene County that would connect US 65 at Evans Road with the future extension of State Highway FF south of the City of Battlefield.

- On December 16, 1997, the Springfield Area Transportation Study Organization (MPO) and the City of Springfield entered into an agreement with Scott Consulting Engineers which authorized an engineering study to further evaluate the roadway concept, to identify the design parameters, and to assess the preferred location/alignment of the future roadway corridor.

- Two public meetings were held in 1998 (February 23rd & June 23rd) at the Cherokee Middle School to gather comments from local residents on the proposed River Bluff Parkway roadway concept. These public open houses were well attended with each meeting drawing well over 200 interested parties. This public input led the engineering study consultants towards a recommended roadway location/alignment that minimized impact to adjacent landowners.

- In March of 1999, the "River Bluff Parkway Corridor Concept Study" report was completed by Scott Consulting Engineers in partnership with HNTB Corportation. The study included an analysis of seven potential alignment options that were reviewed, it recommended design criteria for the future roadway, and it addressed several features and amenities that would further enhance the community benefits of the proposed roadway corridor.

- June 29, 1999 – A Public Meeting was held at Kickapoo High School to present the findings and recommendations of the "River Bluff Parkway Corridor Concept Study". The final recommendations included a preferred alignment for the future East-West Arterial corridor. The event was attended by over 300 citizens.

- May 30, 2002 – The Greene County Highway Department enters into an engineering contract with Great River Engineering to complete an Environmental Assessment and to prepare preliminary design plans for the East-West Arterial from FR 141 (Cox Rd) to Campbell Avenue.

Campbell Avenue. The work included an analysis of three (3) potential roadway alignment options in order to determine the preferred alignment.

- November 10, 2009 – A Public Meeting is held by the Greene County Highway Department and Olsson & Associates in order to present potential roadway alignments to citizens for their comments, and to gather public input on the conceptual roadway design features.

- January 2010 – Greene County begins work on a cultural resource study for the proposed roadway corridor via a contract agreement with Dr. Lopinot (as part of the overall Environmental Assessment for the proposed roadway).

- September 26, 2011 – Cultural Resource study report is completed and formally submitted to MoDOT for review and comments.

- May 2012 – The Greene County Highway Department entered into a supplemental contract with Olsson & Associates to complete a formal Phase 1 Cultural Resource analysis of the proposed project corridor, and to prepare a detailed Traffic Analysis report that can be included as part of the Environmental Assessment document. The Traffic Analysis concluded that the future construction of the proposed East-West Arterial would reduce traffic congestion on National Ave, James River Freeway, and Campbell Avenue while improving safety on each of these roadways.

- In 2013, the City of Springfield completed construction of the first phase of Riverbluff Boulevard. Construction for this phase included Riverbluff Boulevard from US 65 on the east to a newly constructed Southwood Avenue on the west.

- June 2013 – Greene County Highway Department submits updated Environmental Assessment report documents to MoDOT, which include traffic analysis data, updated cultural resource analysis, and Section 4(f) data on potential impacts to publicly owned park lands.

- August 2014 – Olsson & Associates completed preliminary engineering design plans for East-West Arterial from Kissick Avenue to Campbell Avenue to reflect the preferred alignment that is identified within the Environmental Assessment report.

- August 28, 2014 – Greene County Highway Department entered into a supplemental contract agreement with Olsson & Associates to produce preliminary engineering design plans for the East-West Arterial from Campbell Avenue to Cox Road (FR 141).

- January 2015 – Olsson & Associates completed updated preliminary engineering design plans for the East-West Arterial from Campbell Avenue to Cox Road (FR 141).

County of GREENE State of Missouri

ORDER of the
GREENE COUNTY COMMISSION
Springfield, Missouri

DATE ISSUED: May 20, 2021

SUBJECT: Appointment as a Greene County Representative to the Transportation Advisory Committee.

The members of the Greene County Commission hereby appoint Joel Keller as a Greene County representative to the Transportation Advisory Committee, this appointment will be effective 5/20/2021 to 5/20/2022.

THE GREENE COUNTY COMMISSION

Bob Dixon
Presiding Commissioner

Rusty MacLachlan
Commissioner District 1

John C. Russell
Commissioner District 2

NO. 20-BCD

Bob Dixon
Presiding Commissioner

Rusty MacLachlan
Commissioner 1st District

John Russell
Commissioner 2nd District

County of GREENE State of Missouri

ORDER of the
GREENE COUNTY COMMISSION
Springfield, Missouri

DATE ISSUED: May 20, 2021

SUBJECT: Appointment as a Greene County Representative to the Transportation Advisory Committee.

The members of the Greene County Commission hereby appoint Howard Fisk as a Greene County representative to the Transportation Advisory Committee, this appointment will be effective 5/20/2021 to 5/20/2022.

THE GREENE COUNTY COMMISSION

Bob Dixon
Presiding Commissioner

Rusty MacLachlan
Commissioner District 1

John C. Russell
Commissioner District 2
