To whom it may concern,

**Letter of statement for
SINGLE FEASIBLE SOURCE PURCHASE POSTING NOTICE**

The Missouri Department of Transportation has deemed that only one source, SASCO Pavement Coatings Inc. located at 718 N. Broadview Place, Springfield MO 65802 can furnish the department with STAR Macro-Deck Concrete Protector in the following districts: Central, Southwest, and Southeast.

STAR Macro-Deck was developed specifically for Highway Departments to use on bridge decks; however, it can be applied on bridge abutments, walls, and it has also been used to protect sidewalks, concrete structures, driveways, airport aprons, and concrete block buildings.

STAR Macro – Deck is a polymer-based product that has three unique properties, the material has the ability to penetrate into the concrete matrix, seal very fine cracks, and become a contouring surface coating over the entire area.

June, 2022

MACRO-DECK®

GENERAL DESCRIPTION

STAR MACRO-DECK® protects concrete bridge decks, abutments and other concrete surfaces against salt and damage from chemicals. STAR MACRO-DECK® quickly penetrates concrete surfaces and forms a rubber network in the interstices that form while concrete cures out. STAR MACRO-DECK® stops water, chloride de-icing chemicals, salt, and other damaging elements from entering the concrete surface.

OUTSTANDING PROPERTIES

- Inhibits chloride de-icing chemicals, salt and damage from chemicals to concrete.
- Maintains flexural and tensile strength of the concrete.
- Very easy to apply. Very fluid, water like consistency.
- Water-based, safe to handle and easy to store.
- Resistant to many hydro-carbons and other petrochemicals.
- Non-flammable.

RECOMMENDED USES

STAR MACRO-DECK® is recommended on all types of concrete surfaces; Concrete bridge decks, support structures, guard walls, median dividers, curbs, grain elevators, sanitary sewer, masonry walls and floors, airport taxiways and aprons.

COVERAGE RATE

200 - 300 Sq. Ft / Gal (4.9 - 7.3 Sq. Meter / Liter)
Will vary according to dilution.

DILUTION RATE

The amount of water added to STAR MACRO-DECK® will vary according to the porosity, age and profile of the concrete being treated.

General Dilution Guidelines for:

- Abutments: Dilution is NOT recommended.
- Bridge Decks: Mix with an equal volume of water (1:1)
- Older Bridge Decks: Either apply at full strength or apply pre-diluted in 1:1 ratio with water.
- ALWAYS: add water *into* STAR MACRO-DECK®, *not vice-versa*.

APPLICATION

GENERAL PREPARATION: Concrete must be clean, free of dust, grease, grime, mold, mildew and debris. Concrete must have a profile and a certain degree of porosity for STAR MACRO-DECK® to penetrate effectively.

ON SMOOTH SURFACES: Etch with muriatic acid.

OIL AND GREASE CONTAMINATION: Remove by de-greasing and washing with detergent.

MOLD AND MILDEW: Remove using bleach wash or other suitable method.

APPLICATION TOOLS

- Low pressure spray, brush or roller.
- Clean up with Water. Do not discard washings in the bodies of water or down sewer drains.
- Keep stored containers sealed tightly.

IMPORTANT WEATHER LIMITATIONS

- Surface and air temperature should be a min. 50° F (10° C) and rising.
- Do not apply on rainy, foggy, or extremely humid days, or when rain is in the forecast within 24 hours.
- Drying time is retarded by high humidity and/or lower temperatures.

CURING TIME

Cure time will vary according to temperature and humidity at the time of application. Lower temperatures, high humidity and lack of direct sunlight will prolong the cure time. Higher temperatures, lower humidity and direct sunlight accelerate the cure process. After the application allow the coating to cure at least 30 minutes under good drying conditions. Apply at the recommended application rates. Thick applications will require more time to dry and fully cure.

MATERIAL PROPERTIES & SPECIFICATIONS

PHYSICAL PROPERTIES

Polymer Type.....	100% Acrylic
Solids by Weight.....	19-21
Weight per Gallon.....	8.5-8.6 lbs
Viscosity.....	60-70 cps

ESTIMATED DURABILITY FOR: RESULTS

Abutments.....	Over 3 Years
Bridge Decks.....	Approx. 3 Years
Abutments.....	Over 3 Years
Abutments.....	Over 3 Years

PENETRATION IN CONCRETE: RESULTS

Surface with no cracks.....	0.50 inch
Surface with minor cracks.....	1.00 inch

CAUTIONS

KEEP FROM FREEZING

KEEP OUT OF REACH OF CHILDREN

STAR MACRO-DECK® is a water-based product therefore it must be protected from freezing. Observe all safety precautions, Consult Material Safety Data Sheets for details.

PACKAGING & AVAILABILITY

5-Gallon plastic pails, 55-gallon drums & 275-gallon plastic totes, and bulk at all STAR plant locations.

To: Karla Nay
Subject: Re: Sole Source Letter Request

Good afternoon Karla,
Hope you had a nice weekend.

Sorry for the delay in sending this, I was on vacation last week.

Regarding STAR Macro Deck:

Confirming that Macro Deck is considered a Single Feasible Source Product.

MoDOT's Organizational Results for Protective Surface Treatment Concrete:

Macro Deck was the only sealer that passed the two tests picked for MoDOT.

Also Passed the Skid Resistance Testing by Texas Transportation Institute.

Rated #1 for the Best Rapid Chloride Permeability Testing (AASHTO T277).

Tested and Chosen over the (Other Types) of Concrete Protective Sealers:

1. Silane
2. LinSeed Oil
3. Radcon #7
4. Chem Tech One

Only Product that is Water Based Acrylic/Clear/Penetrating/Crack Sealer/ + .

Lowest Priced Product in the testing results @ \$19.85 per gallon / 200-300 sf.

MoDOT pricing is still @ \$19.85 per gallon X 275 gallon tote = \$5,458.75

No other product is made of this material with these test results and approved.

MoDOT determined only SASCO can furnish Marco Deck in SW/SE/& Central.

Let me know if you have any questions.

Best regards,
Mark Cannefax
SASCO

Hello Mark,

Since we are having issues getting another sole source letter, I have asked my director if I could use the letter from last year and adjust the date for the 5 years from the date on the letter last year. She has approved it as long as you can confirm that this product is indeed still a sole source item. Is the Star Macro Deck Concrete Protector still a sole source item?

Thank you,

Good morning Karla,

Hope you had a nice weekend !

Regarding a updated Single Source Letter for MacroDeck:

I am waiting on MoDOT to revise/update to current year.

Even though they current use the product the paperwork is updated
i believe once a product is approved as a Single Source it's not approved every year.
I can give you the original documents/letter for Single Source if you like.
I will reach out to MoDOT again this week, and let you know about an update.

Thanks,

Mark Cannefax

Good morning Mark,

Could I get another sole source letter from you again this year? We have changed how we are doing our sole source contracts. I will now be reverifying them by advertising, getting a sole source letter and going before the Commission for approval every 5 years. I have attached a copy of the letter that you sent me last year for your convenience.

Please let me know if you have any questions.

Thank you,

Karla Nay

THIS INDENTURE, made this ____ day of _____, 20____, by and between the **City of Springfield, Missouri** (hereinafter "**City**"), by and through the **Springfield-Greene County Park Board** (hereinafter "**Park Board**"), a municipal corporation (hereinafter "**Grantor**" and/or "**Park Board**"), and **Greene County, Missouri** (hereinafter "**Grantee**"). The mailing address of Grantor is 1923 N Weller Ave, Springfield, MO 65802. The mailing address of Grantee is 940 Boonville Ave, Springfield, Missouri 65802.

WITNESSETH, that said Grantor, in consideration of the sum of One Dollar (\$1.00) and other valuable consideration, to said Grantor in hand paid by the said Grantee, the receipt of which is hereby acknowledged, does by these presents grant, bargain and sell, convey and confirm unto the said Grantee, its successors and assigns, a perpetual public roadway easement in, over, under and upon a portion of Grantor's real estate, located near the southwest corner of Farm Road 190 and Farm Road 141, in the County of Greene, State of Missouri (hereinafter "**Property**"), as described in Attachment "A" and Exhibit "B," to wit:

**SEE ATTACHMENT "A" and EXHIBIT "B"
WHICH ARE ATTACHED HERETO AND INCORPORATED HEREIN BY REFERENCE**

TO HAVE AND TO HOLD the same for the purpose of constructing and maintaining a public street improvement or related purpose, together with all and singular the rights, privileges, appurtenances and immunities thereto belonging, or in anywise appertaining, unto the said Grantee, and unto its successors and assigns, forever; the said Grantor hereby covenanting on its part and on behalf of its successors and assigns that said Grantor is lawfully seized of an indefeasible estate in fee in the premises herein conveyed; that said Grantor has good right to convey the public roadway easement described herein; that the said premises are free and clear of any encumbrances done or suffered by Grantor or those under whom Grantor claims; and that said Grantor will warrant the title to the said premises unto the said Grantee and unto its successors and assigns forever against the lawful claims and demands of all persons whomsoever, except the lien of taxes for the current year and none.

Grantor and Grantee hereby agree: (1) No permanent building shall be located within or upon said easement referenced herein without the prior written consent of Grantor and Grantee; and (2) No trees, shrubs, bushes, plantings or other vegetation may be removed from or near this easement area without first obtaining Grantor's written approval.

By acceptance of this conveyance, said Grantee hereby covenants on its behalf, and on the behalf of its successors and assigns, that it will for the benefit of the Grantor, its successors and assigns:

(1) Grantee shall inform Grantor in advance concerning the nature of any improvements it intends to install in the easement area, including the dimensions and character of such improvements; (2) once constructed, restore any of Grantor's surrounding real estate as nearly as reasonably possible to the same condition in which it existed immediately prior to any construction activity caused by Grantee, as may be done thereon and therein from time to time, all within a reasonable time thereafter; the Grantee further covenanting in this regard that it will, among other things: (a) insofar as reasonably possible cause an excavation upon any of Grantor's surrounding real estate to be backfilled and graded to an original or improved grade; (b) insofar as reasonably possible remove all debris resulting from construction; (c) cause the re-seeding of any disturbed area; (d) insofar as reasonably possible use care to preserve those trees located within the easement, except those specifically identified by Grantor as approved for removal by the Grantee; and (e) replace any existing improved walkways, drives or retaining walls destroyed or damaged by this construction.

The foregoing covenants shall run with the land and are binding upon Grantor and Grantee, and their respective successors and assigns.

IN WITNESS WHEREOF, the said Grantor has executed the above the day and year first above written.

Accepted by the Greene County Commission
Date: 2/3/2023

Bob Dixon, Presiding Commissioner
